# INTERIM COMMERCIAL ITEM DESCRIPTION

## ANTISEPTIC-ANESTHETIC LOZENGES, Phenolated

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be lozenges containing phenol, sodium phenolate in a flavored base.

The lozenges may contain other inactive ingredients such as corn syrup, flavor, sucrose and water.

Shall contain 32.5 mg of total phenol per lozenges within the applicable assay limits.

The presence of all of the ingredients in the formula for the lozenges shall be determined from the batch formulation sheet kept on file by the manufacture.

The bidder or offeror shall submit with its bid or proposal the test methods and results for the phenol assay and any other physical or chemical testing protocols approved by the FDA.

Such methods shall be employed in the testing of the lozenges and need not be resubmitted provided the bidder or offeror certifies that there has been no change in formulation or method of manufacture.

Shall be supplied 48 lozenges individually sealed in a commercially available container.

Workmanship. The lozenges shall be free from defects which detract from their appearance or impair their serviceability.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Materials used in the manufacture of the lozenges shall be of a pharmaceutical grade.

Unit. Package (PG). One package containing 576 lozenges (12 cartons of 48 lozenges) as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
