COMMERCIAL ITEM DESCRIPTION

ACETONE TEST TABLETS

The General Services Administration has authorized the use of this Commercial Item Description in preference to Military Specification MIL-A-36897.

Salient Characteristics:

Shall be compressed Acetone Test Tablets.

Shall be in accordance with the requirements of the FDA.

Tablets shall be capable of detecting from 0.02% to 1% of acetone in urine, plasma or serum when tested by a suitable, accurate and reproducible method as used for commercial release.

Workmanship. The Tablets shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Bottle (BT). One bottle containing 100 tablets, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC/NA FSC 6550
