COMMERCIAL ITEM DESCRIPTION

PLANETABLES, SURVEYING, WITH TRIPOD AND CARRYING CASE

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-P-10813E.

This proposed commercial item description covers both an 18-X-24 inch and a 24-X-31 inch planetable board (457.2 X 609.6 mm and 609.6 X 787.4 mm), extension-leg tripod with a Johnson movement head, and a carrying case for each size of planetable board.

Salient characteristics:

Planetable board: The planetable board shall be made of seasoned wood with reinforcing hardwood at each end. The planetable board shall be fitted with a brass screwplate mounted on the underside to fit the Johnson head tripod. Each planetable board shall be fitted with brass screws with knurled flatheads and pointed for insertion through paper into brass sockets in the edges of the boards. The sockets shall be in a slight depression to avoid obstruction of movement of the alidade.

Types:

Type 1	18 X 24 inch (457.2 X 609.6 mm)
Type 2	24 X 31 inch (609.6 X 787.4 mm)

Note: Ordering activity shall specify type.

Tripod: The tripod shall be an extension leg tripod with Johnson head movement type of tripod head. The tripod head shall be threaded 5/8 inch -11 UNC - 2A. The tripod shall be equipped with steel leg shoes and carrying strap. The length of the tripod when extended shall be not less than 49 inches (1244.6 mm), and when closed shall be approximately 36 inches (914.4 mm).

Carrying case: The carrying case for each type of planetable board shall be canvas, cotton duck or nylon-coated cloth.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical.

Packaging and marking. Military packaging shall be specified when shipments are to overseas Department of Defense (DOD) consignees. Commercial packaging may be specified for shipments to DOD consignees within the Continental United States

AMSC N/A   FSC 6675

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

and to non-DOD consignees worldwide. When a suppliers normal packaging will satisfy the requirements for military packaging, it may be used.

Military packaging. Each planetable with tripod and case shall be preserved and packed to protect against physical damage and deterioration in a logistic environment characterized by the following:

1. Multiple handling during transportation and intransit storage.
2. Shock, vibration, and static loading forces during worldwide shipment by all transport modes.
3. Uncontrolled warehouse storage for extended periods.
4. Weather exposure during shipment and intransit transfers.
5. Stacking loads during shipment and storage.

Quantities of planetables of like type destined to a single addressee may be unitized into one or more unit loads.

Commercial. Each planetable with tripod and case shall be packaged in accordance with the supplier's normal method for retail distribution. Planetables of like type shipped to a single destination may be unitized to permit handling as a single unit. Shipping containers shall comply with Uniform Freight Classification or National Motor Freight Classification rules.

Marking. Unit, intermediate (when provided), and exterior packs shall be marked with the item nomenclature, stock or part number, quantity per pack, and contract number as a minimum; additional marking shall be as specified in the contract or order. Exterior packs shall have in addition the complete consignee's address. Markings shall be applied in a legible manner, in a contrasting color, of an appropriate size, and of waterproof materials.

Quality assurance. The planetables shall examined for the following defects. Presence of one or more defects shall be cause for rejection.

1. Materials not as specified.
2. Construction not as specified.
3. Dimensions not as specified.
4. Planetable board not as specified.
5. Tripod not as specified.
6. Carrying case not as specified.
7. Packaging and marking not as specified.

Certification of commercial item. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business. A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit a sample surveying planetable with tripod and case. Any such planetable may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commercial item description and to determine equivalency to surveying planetables with tripod and case available in the commercial marketplace in the areas of durability, human factors engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low bidder for award for this solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

NOTES:

1. Ordering activity shall specify type of planetable required.
2. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
