COMMERCIAL ITEM DESCRIPTION

RULES, STEEL, MACHINIST'S

ENGLISH AND ENGLISH-METRIC GRADUATION

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-R-20387.

This description covers two types of steel rules.

Salient Characteristics.

Design.

Type 1. The rule shall have a 36-inch long scale on both sides with graduation on the four edges in eighths, sixteenths, thirty-seconds, and sixty-fourths, respectively. The rule shall be 1- to 1-1/2-inches wide and 3/64- to 1/10-inch thick. Each edge shall be marked 8, 16, 32, and 64 respectively, within 1 inch of the first graduation mark.

Type 2. The rule shall be 1 meter long scale on both sides with graduation on the four edges in thirty-seconds, sixty-fourth, half millimeter and 1 millimeter respectively. The rule shall be 31.8 mm wide, and 1.2 mm thick. Each edge shall be marked 32, 64, 1/2 mm, and 1 mm respectively, within 1 inch of the first graduation mark.

Material. The rules shall be made of a stainless steel material and have a polish, nonglare finish.

Workmanship. The rules shall be free from defects such as sharp edges, burrs, cracks, dents, tool marks, and other defects that could impair the serviceability of the rules.

Regulatory requirements. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practicable.

Packaging and marking. Military packaging shall be specified when shipments are to overseas Department of Defense (DoD) consignees. Commercial packaging may be specified for shipments, to DoD consignees within the Continental United States, and to non-DoD consignees worldwide. When a contractor's normal packaging will satisfy the requirements for military packaging, it may be used.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and other data which may improve this document should be sent by letter to: Commander, US Army Belvoir Research, Development and Engineering Center, ATTN: STRBE-TSE, Fort Belvoir, VA 22060-5606.

AMSC N/A FSC 5210

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Military packaging. The steel rules shall be preserved and packed to protect against physical damage and deterioration in a logistics environment characterized by the following:

1. Multiple handling during transportation and in-transit storage.
2. Shock, vibration, and static loading forces during worldwide shipment.
3. Uncontrolled warehouse storage for extended periods.
4. Weather exposure during shipment and in-transit transfer.
5. Stacking loads during shipment and storage.

Quantities of steel rules delivered to a single addressee may be unitized into one or more loads.

Commercial. Each steel rules shall be packaged in accordance with the contractor's normal method for retail distribution. Steel rules shipped to a single destination may be unitized to permit handling as a single unit. Shipping containers shall comply with the Uniform Freight Classification or National Motor Freight Classification rules.

Military marking. Marking shall be in accordance with MIL-STD-129. For the purpose of marking, the level of preservation and packaging shall be A/A.

Commercial marking. Unit, intermediate (when provided) and exterior pack shall be marked with the item nomenclature, stock or part number, quantity per pack, contract or package order and additional marking shall be as specified in the contract or order. Exterior pack shall have in addition the complete consignee's address. Marking shall be applied in a legible manner in a contrasting color, of an appropriate size, and of waterproof material.

Quality assurance. The steel rule shall be examined for the following defects. Presence of one or more defects shall be cause for rejection:

1. Design not as specified.
2. Material not as specified.
3. Workmanship not as specified.
4. Packaging and marking not as specified.

Certification of commercial item. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business. A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit a sample steel rule. Any such steel rule may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commercial item description and to determine equivalency to steel rules available in the commercial marketplace in the areas of durability, human factors

engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low offeror for award for the solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

NOTES:

1. Ordering activity shall specify type of steel rule required.
2. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
