(W-F-406, Issue in effect)

SUPERSEDING
Int. Fed. Std. No. 00157 (GSA-FSS)
January 23, 1962

FEDERAL STANDARD

FITTINGS FOR ELECTRICAL CABLE AND FLEXIBLE METAL CONDUIT

Authority. *This standard is issued pursuant to the Federal Property and Administrative Services Act of 1949, as amended, and its application to the purchase of commodities referred to herein is mandatory on all Federal agencies.*

S1. Purpose and scope. The purpose of this standard is the establishment of a standard list of fittings for electrical cable and flexible metal conduit as required for ordinary maintenance and extension of circuit purposes by Government maintenance activities. This standard will keep the varieties of such fittings and accessories which are to be procured and stocked to the minimum consistent with such requirements.

S2. Application. Purchases from commercial sources under Federal Specification W-F-406, of the issue in effect on date of invitation for bids, shall be limited to items which have characteristics conforming to the standard items specified herein. Existing Government stocks of items with other characteristics shall continue to be utilized until exhausted. In those cases where this Federal Standard eliminates supply items and the items so eliminated are under contract, if the contract cannot be negotiated or amended to conform to the standard items, the Federal Standard becomes mandatory at the contract expiration date.

S3. Standard characteristics and item identification. The standard items with their applicable Federal Stock Numbers shall conform to the characteristics listed herein:

S4. Changes. When a Federal agency considers that a Federal Standard does not provide for its essential needs, written request for adding to or otherwise changing the standard, supported by adequate justification, shall be sent to the Administration. This justification shall explain wherein the standard does not provide for essential needs. The request shall be sent in duplicate to General Services Administration, Federal Supply Service, Standardization Division, Washington 25, D. C. The Administration will determine the appropriate action to be taken and will notify the agency.

S5. Conflict with referenced specifications. Where the requirements specified in this standard conflict with any requirements in a referenced specification, the requirements of the standard shall apply. Nature of the conflict between the standard and the referenced specification shall be submitted, in duplicate, to General Services Administration, Federal Supply Service, Standardization Division, Washington 25, D. C.
