P-D-800C
INTERIM AMENDMENT-1
June 8, 1978

INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

DUST MOP TREATING COMPOUND

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, D.C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification P-D-800C, dated January 30, 1976.

PAGE 3

Paragraph 4.4.1, delete and substitute the following:

4.4.1 Stability. Place 500 ml of the compounds in a polyethylene bottle, and place in a freezer maintained at $-2^{\circ}\pm1^{\circ}C$ ($28\pm2^{\circ}F$) for 16 hours. Withdraw and allow to come to room temperature for eight hours. Repeat this cycle two more times, and examine for compliance with 3.2 after decanting into a glass beaker. In addition, place 500 ml of the compounds in a glass stoppered flask and maintain at $50^{\circ}\pm1^{\circ}C$ ($122^{\circ}\pm2^{\circ}F$) for 48 hours. Allow to come to room temperature and examine for compliance with 3.2.
