COMMERCIAL ITEM DESCRIPTION

RAVIOLI, BEEF, CANNED
(IN TOMATO SAUCE, WITH OR WITHOUT BEEF)

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description (CID) covers beef ravioli, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The beef ravioli shall conform to the type(s) as specified in the solicitation, contract, or purchase order.

Types.

Type I - Beef ravioli in sauce
Type II - Beef ravioli in meat sauce

Processing: The beef ravioli shall be prepared in accordance with good commercial practice.

Raw ingredients: Each beef ravioli shall consist of at least 10 percent beef, based on the fresh and/or frozen uncooked weight of the beef and other ingredients. The wheat flour used

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

in the beef ravioli must be enriched. Partially defatted beef fatty tissue, partially defatted chopped beef, or rendered fat may not be used as ingredients.

Finished product: At least 50 percent of the weight of the can's contents shall be beef ravioli. The beef ravioli shall be rectangular, approximately 1-1/8 inches (2.8 cm) to 1-1/2 inches (3.8 cm) on each side.

Type I - Beef ravioli in sauce. The ravioli shall be composed of ravioli filled with a mixture containing beef and packed in a tomato-based sauce.

Type II - Beef ravioli in meat sauce. The ravioli shall be composed of ravioli filled with a mixture containing beef and packed in a tomato-based sauce that contains at least six percent fresh and or frozen uncooked meat prior to processing.

Age requirements: Unless otherwise specified in the solicitation, contract, or purchase order, the beef ravioli shall not be over 90 days old at time of delivery.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The meat component and the finished product shall originate and be produced, processed, and stored in plants regularly operating under Meat and Poultry Inspection Regulations of the U.S. Department of Agriculture. The delivered beef ravioli shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product within the commercial marketplace. Delivered beef ravioli shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When the solicitation, contract, or purchase order requires that product quality or acceptability or both be determined, the Processed Products Branch (PPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture shall be the certifying activity and shall make the determination in accordance with applicable PPB procedures. The beef ravioli shall be examined or analyzed or both in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers.

Preservation, packaging, packing, labeling, and marking.

The beef ravioli shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer.

A. Commercial packaging. The beef ravioli shall be packaged in a size 603 x 700 metal can in accordance with commercial practice.

B. Commercial packing. Six cans of beef ravioli shall be packed in a container complying with the Uniform Freight Classification or National Motor Freight Classification, as applicable, except metal fasteners shall not be used in the final closure of fiberboard boxes. The cans shall be arranged three in length, two in width, and one in depth within the container.

C. Commercial unit loads. Shipping containers shall be arranged in unit loads in accordance with Type III, Class G of MIL-L-35078.

D. Export packaging. The beef ravioli shall be packaged in a size 603 x 700 open-top style, round, metal can with a soldered (lead-free) or welded side seam and compound-lined, double-seamed ends. The can shall be made throughout from not less than 0.25 pound per base box electrolytic tinplate. The can shall have a sufficient baseplate weight and temper to protect the product during shipment and storage. The entire inside area of the can shall be enameled. The can shall be coated over all of the outside with a coating conforming to Type I or when specified, Type III of TT-C-495. The filled can shall be hermetically sealed.

E. Export packing. Six cans of beef ravioli shall be packed in a snug-fitting fiberboard box constructed, closed, and reinforced in accordance with style RSC, grade V3c, V3s, or V4s of ASTM D 5118. Each shipping container shall be closed and reinforced with nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape in accordance with ASTM D 1974.

F. Export unit loads. Shipping containers shall be arranged in unit loads in accordance with Type I, Class A of MIL-L-35078.

G. Labeling (commercial and export). Labeling of cans shall be in accordance with commercial practice and be in compliance with the Federal Meat Inspection Act and regulations promulgated thereunder.

H. Marking (commercial and export). Marking of shipping containers and unit loads shall be in accordance with MIL-STD-129.
