COMMERCIAL ITEM DESCRIPTION
CASE, COMPUTER SUPPLIES, CARRYING

The General Services Administration has authorized the use of this Commercial Item Description (CID) for all federal agencies. The original issue of this CID replaced MIL-C-52370.

1. SCOPE.

1.1 Abstract. This commercial item description covers a carrying case for computer supplies.

2. SALIENT CHARACTERISTICS.

2.1 Description. The computer supplies carrying case shall be a lightweight, portable case capable of laying flat in an open position. The case shall have interior storage pockets, handle(s), and a carrying strap. The case shall maintain its form whether filled or empty and provide adequate isolation to protect contents while in transport.

2.1.1 Access. The equally dimensioned top and bottom sections shall be secured by means of a rustproof, interlocking slide fastener, or similar device (see figure 1). The top and bottom sections shall be hinged in such a manor as to allow the sections to lie flat with immediate access to all contents (see figure 2).

2.1.2 Pockets. The interior of the case shall have eight pockets, fabricated from similar materials, each with a flap closure secured with a fastener (see figure 2). The pockets shall be semi-rigid and permanently attached to the interior of the case. The pockets shall be arranged in a manner which provides maximum utilization of space.

2.1.3 Handle(s). Handle(s) of rigid construction, having minimum dimensions of 2.50 inches high by 5.50 inches long, shall be closely positioned in parallel in both the top and bottom sections to provide single-handed gripping, lifting and carrying capabilities.

Comments, suggestions, or questions on this document should be addressed to: U.S. ARMY TOPOGRAPHIC ENGINEERING CENTER, ATTN: CEERD-TS-T, 7701 TELEGRAPH ROAD, ALEXANDRIA, VA 22315-3864 or emailed to pd-te@tec.army.mil . Since contact information can change, you may want to verify the currency of this address information using the ASSIST Online database at www.dodssp.daps.mil .

2.1.4 Carrying strap. The case shall have an adjustable working length, carrying strap, 60.00 ±.50 inches long. The strap shall be padded, secured to reinforced attachment points, and removable when not in use.

2.2 Material. The case shall be fabricated from, compatible materials, inherently corrosion resistant, or treated to provide protection against corrosion and deterioration. The case shall be a fabric, or similar material, of sufficient stiffness to retain self-supporting capabilities.

2.2.1 Color and treatment. Unless otherwise specified (see 6.2), all materials used to fabricate the case, pockets, handles, and carrying strap shall be in the manufacturer's standard color, and shall be treated to be water and mildew resistant.

2.3 Dimensions.

2.3.1 Closed case. The closed case shall be 16.25 x 13.25 x 5.75 (high) ± .125 inches (see figure 1).

2.3.2 Dedicated pockets. The dedicated pocket dimensions shall be as shown in table I. The dimensions are in inches with a tolerance of ± .06 inches,

TABLE I Dedicated pocket dimensions.

Pocket no.	Length (outside)	Width (inside)	Height (inside)
1	8.00	3.00	2.00
2	4.00	2.00	1.50
3	5.50	2.50	1.25
4	8.00	2.25	1.25

Pocket no.	Length (outside)	Width (inside)	Height (inside)
5	13.50	8.25	1.75
6	9.88	7.00	1.75
7	6.00	3.00	1.50
8	13.75	3.00	1.50

2.4 Identification marking. Unless otherwise specified (see 6.2), the carrying cases shall have the contractor's identification located in a place where the data will be noticeable and legible, but not interfere with the operation of the case.

3. REGULATORY REQUIREMENTS.

3.1 Recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS.

4.1 Market acceptability. The carrying case offered shall be the latest model of the standard product of the supplier that has been used for at least one year by commercial organizations.

Check the source to verify that this is the current version before use.

4.2 Conformance statement. The carrying case shall meet the salient characteristics of this CID, conform to the manufacturer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance.

4.3 Examination. The carrying cases shall be examined for compliance with the requirements specified in Section 2. This inspection shall encompass all examinations of performance and dimensional requirements. Any modification necessary following failure to meet the specified requirements shall receive particular attention for adequacy and suitability. Failure to comply with any specified requirement, or the presence of one or more defects, shall constitute cause for rejection.

5. PACKAGING.

5.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or order (see 6.2).

6. NOTES.

6.1 Intended use. The carrying case is used to store and transport computer supplies used by artillery and topographic surveying and mapping units.

6.2 Ordering data.

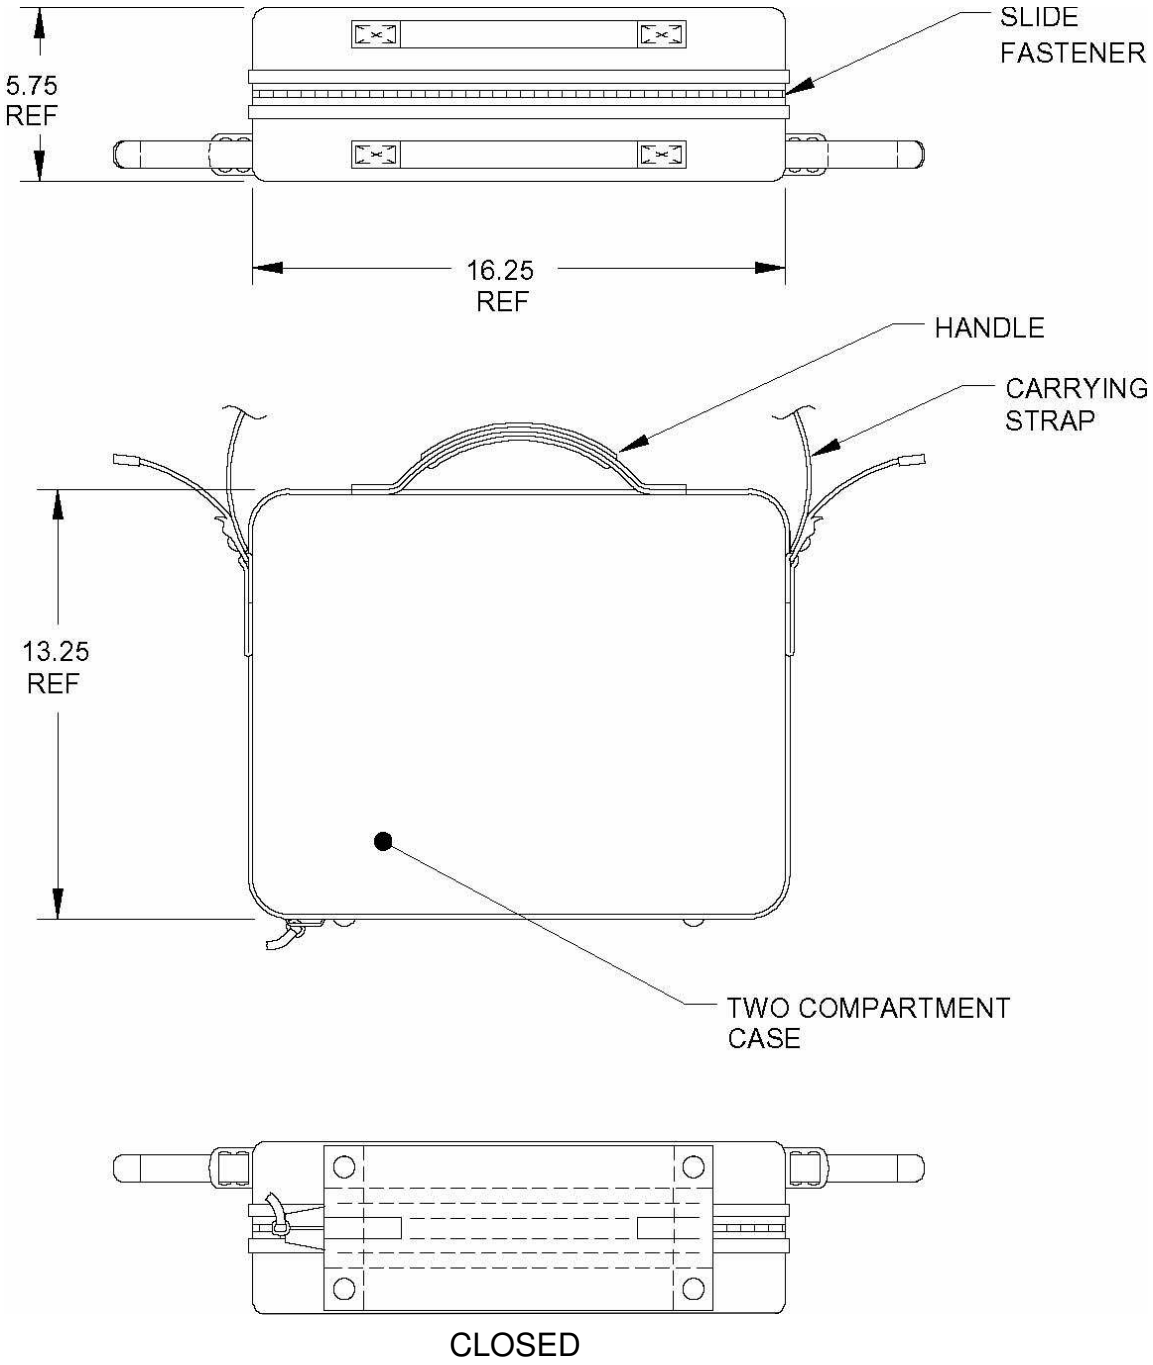

a. Title, number, and date of this CID.
b. When a color other than the manufacturer’s standard color is required (see 2.2.1).
c. When identification marking is not required (see 2.4).
d. Packaging (see 5.1).

6.3 Provisioning. The contracting officer shall include, in the contract or order, provisioning requirements, as necessary; and instructions regarding shipment of the carrying cases.

6.4 National Stock Numbers (NSN’s). NSN 6610-00-566-8907 has been used to procure the item in this CID.

6.5 Subject term (key word) listing.
Bag
Container
Pouch
Valise
Peripherals
