MILITARY SPECIFICATION

PRIMER, PERCUSSION M1A2 METAL PARTS FOR

This Amendment forms a part of Military Specification MIL-P-60052 (MU), 28 August 1964.

Paragraph 2.1, SPECIFICATIONS, MILITARY: Delete "MIL-I-45208 ..... for."

Paragraph 2.1, STANDARDS, MILITARY: Add "MIL-STD-1168 — Lot Numbering of Ammunition."

Section 3: Add paragraph 3.5 as follows:

"**3.5 First article inspection.** This specification makes provisions for first article inspection. Requirements for the submission of first article samples by the contractor shall be as specified in the contract.

Paragraphs 4.1 and 4.1.1: Delete and substitute:

"**4.1 General quality assurance provisions.** Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements Reference shall be made to Standard MIL-STD-109 in order to define terms used herein. The provisions of Specification MIL-A-2550 shall apply."

Paragraphs 4.2, 4.2.1, 4.2.2 and 4.2.3: Delete and substitute:

"**4.2 First Article Inspection.**

4.2.1 *Submission.* The contractor shall submit a first article sample as designated by the contracting officer (see 6.5) for evaluation in accordance with the provisions of 4.2.2. The first article sample shall consist of 25 each of every component and every subassembly which have been produced by the contractor or furnished by a supplier and which have been manufactured using the same production processes, procedures and equipment which will be used in fulfilling the contract. All parts and materials, including packaging and packing, shall be obtained from the same source of supply as will be used in regular production. Prior to submission, the contractor shall inspect the sample to the degree necessary to assure that it conforms to the requirements of the contract and submit a record of this inspection with the sample, including statements of findings for materials, processes and tests. A sample containing known defects will not be submitted unless specifically authorized, by the contracting officer. A first article sample, or portion thereof, as directed by the contract-

ing officer, shall also be submitted whenever there is a lapse in production for a period in excess of 90 days or whenever a change occurs in manufacturing process, material used, drawing or specification such as to significantly affect product uniformity as determined by the Government.

4.2.2 *Inspections to be performed.* Assemblies and components will be subjected by the Government to any or all the examinations or tests specified in 4.3.2 and 4.3.3 of this specification and any or all requirements of the applicable specifications.

4.2.3 *Rejection.* If any assembly or component fails to comply with any of the applicable requirements, the first article sample shall be rejected. The Government reserves the right to terminate its inspection upon any failure of any assembly or component to comply with any of the stated requirements."

Paragraph 4.3.1: Delete and substitute:

"**4.3.1** *Lot formation.* The term "lot" as used throughout this specification refers to an inspection lot, which is defined as an essentially homogeneous collection of units of product from which a representative sample is drawn and inspected to determine conformance of the lot with applicable requirements. The sample selected shall represent only that quantity of units from which the sample was drawn and shall not be construed to represent any prior or subsequent quantities presented for inspection. Homogeneity shall be considered to exist provided the lot has been produced by one manufacturer, in one unchanged process, in accordance with the same drawing, same drawing revision, same specification and same specification revision. Changes to the process, specification, or drawing not affecting safety, performance, interchangeability, or storage, as determined by the Government, shall not be deemed to alter the homogeneity of the lot. Inspection lots shall comply with MIL–STD–105 and shall be numbered in accordance with MIL–STD–1168. Unless otherwise approved by the contracting officer, the inspection lot size of end items deliverable under the contract shall be not less than the smallest weekly estimate of quantities contractually scheduled for production during the contract period nor more than the largest monthly quantity contractually scheduled for delivery during the contract period. Inspection lots for components or subassemblies, other than the items of delivery, shall be homogeneous and of a size mutually convenient to both the contractor and the Government inspector."

Paragraph 4.3.2.4: Make the following changes:

Critical defects 1 and 2: Delete asteriks after Code Numbers 04001 and 04002.

Minor defect 204: Delete "first" and substitute "third".

Section 5, paragraph 5.2: Delete paragraph 5.2 in its entirety.

Section 6, Paragraph 6.1: Delete paragraph 6.1. in its entirety and substitute:

"**6.1 Ordering data.** Procurement documents shall specify the following:

(a) Title, number and date of this specification.

(b) Data cards shall be prepared for each lot in accordance with the information specified in Standard MIL–STD–1167."

Section 6, paragraph 6.3.7: Delete paragraph 6.3.7 in its entirety and substitute:

"**6.3.7** *Submission of contractor designs.* Unless otherwise specified on the EL, all designs of equipment for inspection of defects

classified as critical and major shall be submitted for approval to the Commanding Officer, Picatinny Arsenal, ATTN: SMUPA–ND. All other designs of inspection equipment shall be approved by the inspection element of the agency administering the contract; submission shall be as directed by the contracting officer. Partial submission of inspection equipment designs is permissible and encouraged. However, the Arsenal completion date for design review will be based on the date of the final submission of designs. Picatinny Arsenal design review will be accomplished normally within one month after receipt."

Section 6, paragraph 6.5: Delete paragraph 6.5 in its entirety and substitute:

"**6.5 Submission of first article samples.** Instructions as to the location for evaluation of first article samples shall be obtained from the contracting officer. Upon receipt of such request, the contracting officer shall advise Picatinny Arsenal, ATTN: SMUPA–NI, and instructions will be issued accordingly."

Section 6: Delete paragraphs 6.6, 6.6.1 and 6.6.2. in their entirety.
