MILITARY SPECIFICATION

CINNAMON NUT ROLL, CANNED

This amendment forms a part of Military Specification MIL-C-0035000D(GL), dated 28 November 1972.

PAGE 2

2.2, under "U.S. Department of Agriculture", add: "U.S. Standards for Grades of Shelled Walnuts."

PAGE 3

2.2 Add after last item on page, as follows:

National Research Council

Food Chemicals Codex (F.C.C.)

(Application for copies should be addressed to the Office of Director, National Academy of Sciences, National Research Council, Washington, DC 20418.)

3.2.2, heading. Delete "Flour", substitute: "Flour, enriched."

3.2.4 Delete and substitute:

"3.2.4 Shortening. The shortening shall be refined hydrogenated peanut or cottonseed oils or a combination of both, and shall have a stability of not less than 100 hours, when tested by the active oxygen method (AOM) (see 4.5.2.4). The shortening shall contain an antioxidant in the form of TBHQ at the maximum allowable level."

3.2.5 Delete and substitute:

"3.2.5 Eggs, whole, fresh, frozen or dried. The egg products shall be whole, fresh, frozen or dried or a combination thereof. Egg products shall have been produced and handled in compliance with requirements set forth in the USDA publication entitled "Regulations Governing the Inspection of Eggs and Egg Products." They shall be prepared under continuous inspection of the USDA and shall bear the inspection shield mark. If fresh eggs are used, temperatures shall be maintained at or below 40°F prior to use; when thawed frozen eggs are used the temperature and time requirements of the above regulations shall be met.

PAGE 3 (cont'd)

When dried eggs are used in the formulation, an equivalency ratio of 1-part by weight of dried eggs to 3-parts by weight of water shall be maintained."

PAGE 4

3.2.8 Delete and substitute:

"3.2.8 Nuts. The nuts shall be US No. 1 grade of either pecan, almond or walnut pieces. The pieces shall be from 1/8 to 3/8 inches nominal. The walnut pieces shall be treated with a 1:1 mixture of BHA and BHT dissolved in vegetable oil, the level of BHA and BHT shall not exceed 0.02 percent, based on the amount of oil contained in the walnut pieces (approximate analysis 64 percent). The nuts shall be of the latest crop."

3.2.9, line 2. Add the following sentence: "The flavor intensity shall be detectable but pleasantly mild."

3.2.11, line 2. After "ingredients". Insert "as described herein"; delete "cake".

Line 3. After "and", insert "Chemical".

Add new paragraph as follows:

"3.2.12 Chemical leavening. The chemical leavening to be used (cake for cake crumbs only) shall be suitable for the product desired. All leavening ingredients shall meet the requirements of the Food Chemicals Codex."

3.3.1, under "Ingredients", "Whole eggs", Within brackets. Add: "on a liquid basis" after "dried". After "yeast", add adscript "1/" and footnote as follows: "1/ Yeast content may be varied to adjust for shop conditions."

PAGE 5

3.3.1.1 Add to end of paragraph as follows: "Use of dough trimmings and filling from previous batches may be added in dough preparation, in amounts not to exceed 20 percent of the total batch weight, provided all other requirements are met."

3.3.2 Delete all under "Ingredients" and "Parts by weight, and substitute:

"Ingredients	Parts by Weight
Sugar	24.0
Whole eggs (fresh, frozen or dried on a liquid basis)	20.0
Shortening	14.0
Ground cinnamon	4.0

PAGE 5 (cont'd)

Ingredients	Parts by Weight
Salt	1.0
Flavoring (as necessary)	0.0
Cake crumbs	25.0
Walnut, pecan or almond pieces	12.0

3.3.2.1, line 1. After "the" insert: "walnut."

3.3.3, line 7. Delete "on a", and substitute: "as a continuous".

The following optional filling formula shall apply to cinnamon nut roll:

Sugar	36
Whole eggs	23
Shortening	14
Cinnamon	2
Salt	1.5
Nuts	12
*Cake flour	11
Nonfat dry milk	0.5
	100.0

*The batter consistency may be varied by the partial substitution of pregelatinized starch for cake flour.

PAGE 6

3.4, line 7. Delete "300°F" and substitute: "375°F".

Line 10. Delete next to last sentence and substitute: "Within one hour after the can is hermetically sealed, the product shall be cooled to an internal temperature of 100°F (38°C) or less in the center of the product."

3.5 Delete second sentence and substitute: "After cooling, the product may touch the can lid provided that neither the product nor the can liner interferes with or is caught in the can closure seam."

PAGE 7

4.3.2.1.1, line 3. Delete: "Salmonella negative eggs,".

PAGE 8

Table I. Add to footnote "2/" as follows: Certification of shortening stability and addition of TBHQ shall be acceptable for compliance, in lieu of verification testing."

4.3.3 Delete and substitute:

"4.3.3 Examination of formulation and processing. Examination shall be performed to determine conformance to formulation and processing requirements of 3.3 and 3.4. Records of formulation and processing temperatures shall be maintained. In addition, the process examination of the baked product as specified in the quality assurance provisions of PPP-C-26, shall be performed. Notwithstanding the foregoing examination procedures, during processing, as least once each day the product shall be tested for moisture using an appropriate quality control instrument such as a moisture balance or vacuum oven. Five cans shall be tested individually. A range from the highest to the lowest moisture, of greater than 6 percent shall indicate a need for tighter process controls on formulation, baking or steaming time and temperature, and the time between removal from the oven and sealing. Records of this testing shall be maintained by the contractor."

PAGES 9 and 10

Table IV. Delete defects 202 and 203 entirely and substitute: "202 Product or can liner in can closure seam. 2/"

Add new footnote as follows: "2/ Opened sampled units with product on can lid at point closer than 1/4 inch (6.4 mm) from edge shall be further examined by opening up the can closure seam. Defect shall be scored, only if evidence of product or liner is found in the can closure seam."

Renumber defect "204" to "203".

PAGE 11

Table V, Major defect 101. Delete "Burnt or scorched" and substitute: "Crust burned, scorched, or possesses an objectionable caramelized flavor."

Add the following defects:

"Minor 203", "Crust not browned."

"Major 106", "Raw, stringy or ungelatinized center."

PAGE 12

4.5.2.4, line 3. Delete "2nd" and substitute "3rd", delete "(1946)" and substitute "(1971)".
