DATA ITEM DESCRIPTION	Form Approved OBM No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden, estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
Commercial Travel Office (CTO) Backup Billing Input File	DI-ADMN-81331

3. DESCRIPTION/PURPOSE

3.1 The CTO Backup Billing Input File is used by accounting and finance personnel to track and account for ticket purchases and refunds.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a DTIC APPLICABLE	6b GIDEP ALLPLCABLE
930322	S/DFAS-DE-PFT		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirements as delineated in the contract.

7.2 This file is required for (1)reconciliation of backup billing report and (2) computer automated update of accounting data.

7.3 This DID should be used in conjunction with DI-ADMN-81330, Backup Billing Report.

8. APPROVAL LIMITATION	9a APPLICABLE FORMS	9b AMSC NUMBER
		S6911

10. PREPARATION INSTRUCTIONS

10.1 Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

10.2 Format. The file shall be on an IBM compatible 360K diskette in ASCII format. An example of the file's format is provided in Figure 1, CTO Backup Billing Input File. Records sorting shall be in ascending order by: (1) accountable station number, (2) document type code, (3) accounting information, and (4) ticket number.

10.3 Content. Exact data element fields, input formats and validation criteria, and the standard file layout for each record is described in Table I.

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
