Block 7, Application/Interrelationship (Continued)

7.3 Publications referenced below may be obtained Oklahoma City Air Logistics Center/TILD, Tinker AFB, OK, 73145-5000.

7.4 This DID supersedes DI-L-3352A.

Block 10, Preparation Instructions (Continued)

c. Configured item identifier (CII). The configured item identifier (CII) of the item being reported.

d. Data code. The seven position data code obtained from the upper right corner of the TCTO cover page.

e. Status/how malfunction. For mail-in and direct line reporting this shall be the two position status code. For all other reporting methods this shall be the three position how malfunction (HOW MAL) code.

f. Status date. The julian date that TCTO compliance or status change was accomplished.

g. Accomplishing SRAN. The Stock Record Account Number (SRAN) assigned to the reporting activity.

h. Command. The applicable major command (MAJCOM) and subcommand codes or contractor command code for the reporting activity.

i. Actual manhours. The number of manhours expended to accomplish the TCTO.

j. Reversal code. An "X" reverses TCTO status from closed (codes 01-05) to open (codes 06-18).

k. Reversal hours. The actual number of manhours to the nearest tenth of an hour.

l. Work center. The five position work center code that identifies the organization within the SRAN that performed the TCTO action. (May not be applicable to contractor reporting).

m. Work order number. The eight position work order number. (May not be applicable to contractor reporting).

n. Serial number. The item serial number.

o. Automated digital network (AUTODIN)/batch data. Data element entries as indicated below shall be used for AUTODIN/batch input:
