DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

1. TITLE	2. IDENTIFICATION NUMBER
Parts List	DI-ILSS-81359A

3. DESCRIPTION/PURPOSE

3.1 The Parts List is required in support of the provisioning process and includes detailed parts information on each separate item of equipment . The required information will be sufficient enough to identify maintenance part support requirements for the field to the Lowest Replaceable Unit (LRU) level (unless specified otherwise as piece part or box level).

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPPLICABLE	6b. GIDEP APPLICABLE
960307	G/J721		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the for the Parts List resulting form the work tasks described in paragraphs 3.2.7 through 3.2.8.4 of DOD-M-86001(NS).

7.2 This DID is applicable to the acquisition of Non Developmental Item (NDI) i.e.; Commercial Off-the-Shelf (COTS) and Government Off-the-Shelf (GOTS) equipments.

7.3 This DID supersedes DI-ILSS-81359

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		G7181

10. PREPARATION INSTRUCTIONS

10.1 Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

10.2 Format and Content. The Spare Parts List shall include the following data in accordance with paragraphs 3.2.7 through 3.2.8.4 of DOD-M-86001(NS).

10.3 Parts List. The Parts List shall include all maintenance significant parts in the equipment which can be replaced and repaired in the field by maintenance personnel utilizing the LR concept. Each assembly shall be broken down in top-down order with the part number proceeding the listing. For example, list an assembly by part number first then all of the printed circuit cards and modules by part number which comprise the assembly as described in the following:

a. List all parts which may require repair or procurement during the life of the equipment.
b. Do not list hardware items such as attaching parts, chassis, or frames, nor items normally supplied in bulk (wire, tubing, etc.), unless they are special type or critical dimension.

(Continued on Page 2)

11. DISTRIBUTION

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

10. PREPARATION INSTRUCTIONS (Continued)

c. Arrange the list in reference designator order.

d. Start with top assembly (equipment) then break down each assembly (A1, A2, etc.), followed by replaceable chassis mounted components.

e. Provide sufficient information on each item to permit its acquisition from the manufacturer identified by CAGE Code or from a similarly identified commercial source

f. The parts list shall contain the following information in the same order listed here.

1. The true manufacturers model and part number designated for each item. System designers or end item manufacturers part numbers may be use as acceptable true manufacturers numbers only for those items altered specifically for use in the item.

2. A description for each part. The identifying noun or item name.

3. The reference designation for each part listed.

4. The true manufacturers CAGE Code for each part (in lieu of the manufacturers noun name).

5. The quantity of each part in the equipment/unit.

6. The unit cost of each part at the time the parts list is prepared.

7. Unit of issue.

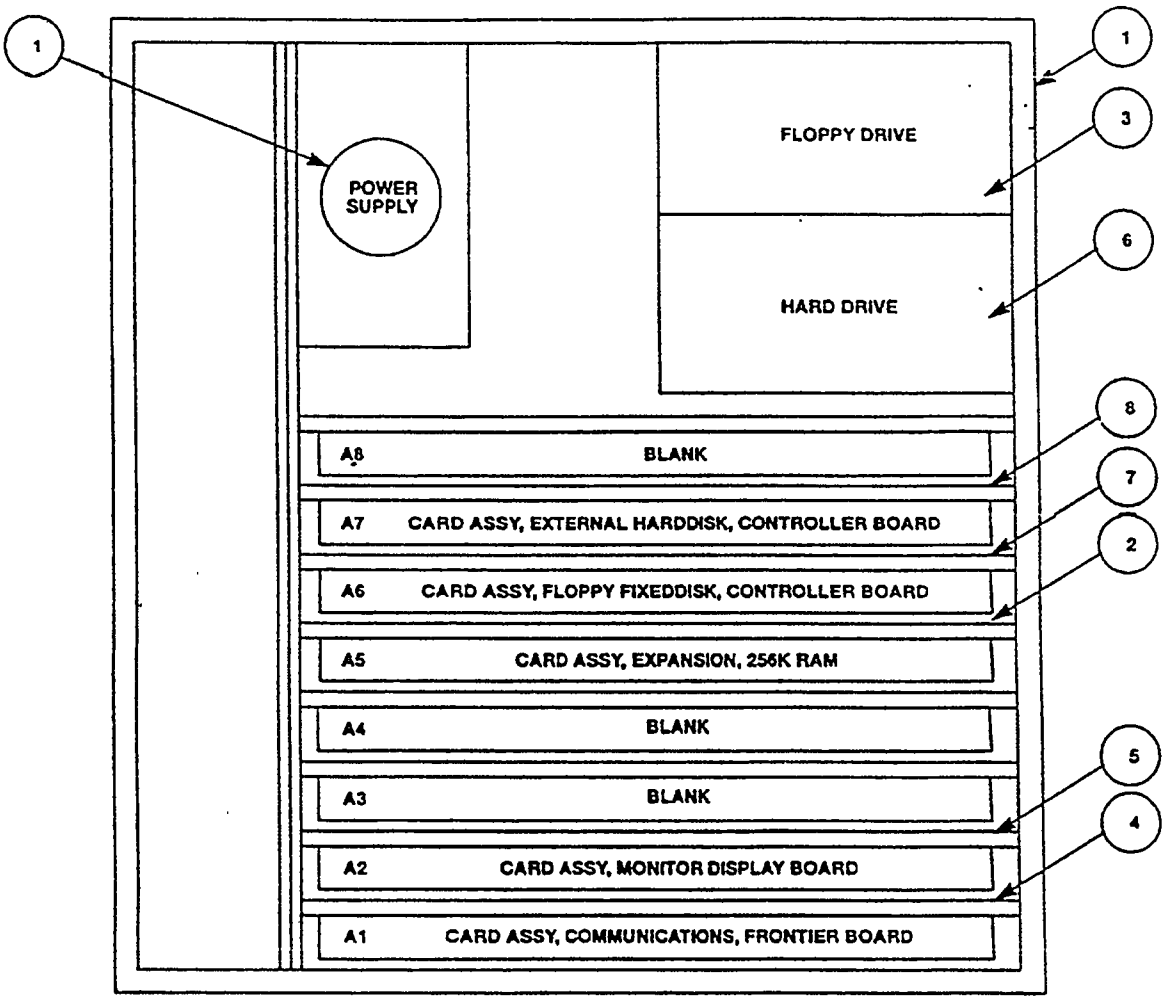

8. Recommended quantity to sustain operation for the time period and under the conditions stated in the contract.

9. Indicate presence and quantity of precious metals.

10. List Electro Static Discharge (ESD) requirements.

10.4 Component Location Illustiation (Figure 1) To support the parts list described in 10.2 above, a component location illustration is required which can be either a photograph or a line drawing as long as the location of each part on the parts list is identified.
