Check the source to verify that this is the current version before use.

Block 3. Description/Purpose (Continue)

3.2 Information to be acquired through these data will include engineering change records, hardware modification records, engineering judgement records (EJR), service experience records, and other related data.

Block 10. Preparation Instructions (Continue)

10.2.2 Required Change Section. This section shall contain a separate section for each technical manual for which changes are required. The sections shall be titled "Changes Required in Technical Manual Number_____, Book Dated_____, Changes Dated_____." Each page of each section shall be identified in the upper right corner with the applicable technical manual number. An introductory statement in each section shall identify any modifications for technical manuals that are incorporated in accordance with MIL-M-24784.

10.2.2.1 The source data shall contain essential information that will enable publications personnel to accomplish all required technical manual changes. When an illustration which is used in more than one technical manual has been changed, the change shall be included from past publication records.

10.2.3 Research and Analysis. Engineering change records, modification records, service experience records, and all change information not yet incorporated in the technical manual(s) shall be included from past publication records.

10.2.4 Text Changes. Each recommended technical manual text change shall be identified by the paragraph number listed in the outstanding issue of the technical manual to be changed. New paragraphs to be added shall be identified by paragraph numbers in accordance with MIL-M-24784.

10.2.5 Illustration Changes. Illustration changes shall be identified by figure numbers in the outstanding issue of the technical manual to be changed. New illustrations shall be identified by new figure numbers assigned in accordance with MIL-M-24784. When illustration changes consist of only nomenclature changes, these changes may be identified by a textual description of the change(s) to be made.

10.2.6 Change Listings. Change listings shall include only part numbers to be added, part numbers to be changed and part numbers to be deleted, as applicable.
