5.5 Cross-reference of National Stock Numbers (NSN) to symbol numbers. (Note: The National Stock Numbers are not listed by Federal Supply Classification (FSC), but rather are listed numerically by the 3-digit number that identifies the fiche number within a given FSC. To find a given stock number, enter the table using the 3-digit number and there you will find all the FSC's that have similar numbers. For example, to find the symbol number for NSN 1H5935-070-9495, first locate 070; there are five listed, one of which is 1H5935-070-9495 for symbol 1171.1.)
