COMMERCIAL ITEM DESCRIPTION

SHAMPOO, MEDICATED, COAL TAR EXTRACT, SALICYLIC ACID, AND SULFUR

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-S-37426 which is cancelled.

Salient characteristics.

Shall be Shampoo, Medicated, Coal Tar Extract, Salicylic Acid, and Sulfur.

All ingredients shall be of a phamaceutical grade.

Shall be a surface active, penetrating, therapeutic, antiseborrheic tar shampoo in a colored, scented, surface active shampoo base.

Shall contain:

Sulfur - two percent.
Salicylic Acid - two percent
Water Miscible Coal Tar Extract, approximately 1.33 percent (equivalent to 0.5 percent Coal Tar USP)

Shall assay to contain not less than 90.0 percent and not more than 110.0 percent of the required amount of Sulfur, Salicylic Acid and Coal Tar when determined by a suitable, accurate and reproducible method(s).

The undiluted lotion shall have a pH of not less than 3.0 and not more than 4.0 when determined potentiometrically at 25°C using the USP method.

AMSC/NA FSC 6508

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

A 2 percent solution (w/w) in dermineralized, distilled or purified water, after careful stirring to avoid excessive foaming, shall have an apparent surface tension of 32.1 to 33.1 dynes per centimeter, when determined between 20°C and 25°C, using a semi-automatic Fisher Surface Tensiomat, Cenco DuNouy Precision Tensiometer, or other suitable instrument, giving comparable results.

Workmanship. The shampoo shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). One bottle containing 4 oz. (113.4 g), as specified, constitutes one unit.

Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
