COMMERCIAL ITEM DESCRIPTION

PENTOBARBITAL SODIUM INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-P-37609 which is cancelled.

Salient Characteristics:

Shall be Pentobarbital Sodium Injection, USP.

Shall be in accordance with the requirements of the USP.

Shall contain 50 mg per ml of Pentobarbital Sodium within the applicable assay limits for the injection.

Shall be a disposable cartridge-needle unit. The cartridge-needle unit shall have a 22 gage 1-1/4 inch sterile hypodermic needle, regular bevel point, firmly secured. Ten (10) such units shall be packaged together in two (2) trays of five (5) cartridge-needle units each, to constitute the unit of issue. The trays shall be of tamper-detection design that allows a single cartridge-needle unit to be removed while the other units remain securely intact. The trays shall be of a transparent nature that allows for visual inspection of the contents of the cartridge-needle units.

The end opposite the needle assembly of the cartridge-needle unit shall contain a suitable plunger or piston having a screw centered in its external face that matches the threaded hole in the plunger rod of the syringe cartridge. The needle shall be protected by a suitable cover.

All materials entering into the manufacture of the injection shall be of a pharmaceutical grade.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

AMSC\NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Box (BX).

One box containing 10 cartridge-needle units, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.
