TIER I ADOPTION NOTICE

ANSI/TIA 5041 Future Advanced SATCOM Technologies (FAST) Open Standard Digital-if Interface (OSDI) for SATCOM Systems was adopted on 20 April 2016 for use by the Department of War (DoW). Proposed changes by DoW activities must be submitted through the TR-34 Satellite Equipment & Systems Committee. DoW activities must be members of Telecommunications Industry Association (TIA) to participate in the committee. More information on the committee can be found at https://tiaonline.org/committee/tr-34-satellite-equipment-systems/. ANSI/TIA-5041 and all TIA standards may be purchased at http://global.ihs.com.

The Telecommunications Industry Association (TIA) represents manufacturers and suppliers of global communications networks through standards development, policy and advocacy, business opportunities, market intelligence, events and networking.

The American National Standards Institute (ANSI) is a private, non-profit organization that administers and coordinates the U.S. voluntary standards and conformity assessment system. ANSI is an industry and Government collaboration that identifies and develops standards- and conformance-based solutions to national and global priorities.

ANSI/TIA-5041 specifies requirements to define a standard interface to connect modems, switches and transmitters at a digital intermediate frequency.

Custodians:
Army – AVN
Navy – AS
Air Force – 01

Adopting Activity:
OSD – SE
(Project MOSS-2026-013)

Reviewing Activities:
Army – AV, MI
Navy – CG, CH, EC, MC, NM, SA
Air Force – 10, 11, 19, 20, 27
DLA – GS
