TIER I ADOPTION NOTICE

IEC 62402 Edition 2.0 2019-05, "Obsolescence Management," was adopted on 29 April 2020 for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: Defense Standardization Program Office, 8725 John J. Kingman Road, Stop 5100, Fort Belvoir, VA, 22060-6220. This document may be obtained from the ANSI Webstore at: https://webstore.ansi.org/

The International Electrotechnical Commission (IEC) 62402, *Obsolescence Management,* Edition 2.0, May 2019, establishes standards by which organizations can develop and operate effective Diminishing Manufacturing Sources and Material Shortages processes. This latest edition was developed with the DoD Standardization Document 22 (SD-22) guidance as a prime consideration. IEC 62402 can be used in conjunction with SAE-STD-0016, *Standard for Preparing a DMSMS Management Plan,* January 24, 2012, in contracts to establish clear requirements for DMSMS management. The use of this standard can help acquisition programs and other organizations that manage DMSMS to meet the requirements of Public Law 113-66, section 803; DoDI 5002.02, *Operation of the Defense Acquisition System,* Change 4, August 2018; and *DoDM 4140.01, Volume 3, DoD Supply Chain Materiel Management Procedures: Materiel Sourcing*, October 2019.

Custodians:
Army – AV
Navy – SH
Air Force – 11
DLA – CC
MDA - MDA

Adopting Activity:
OSD – SO
(STDZ-2020-002)

Review Activities:
Army – AR, AT, CR, GL, MI
Air Force - 85
