TIER I ADOPTION NOTICE

SAE GEIA-STD-0007, "Logistics Product Data," dated November 2019 was adopted on 30 April 2024 for use by the Department of Defense (DoD). This standard was originally issued by the Government Electronics and Information Technology Association (GEIA), but is now published by SAE International. Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: U.S. Army Materiel Command, Logistics Data Analysis Center (LDAC), Building 4400, Martin Road, Redstone Arsenal, AL 35898-7466 ATTN: Logistics Data Standards (AMLD-LSE). Copies of this document may be purchased from SAE International, 400 Commonwealth Drive, Warrendale, PA 15096-0001, http://ww.sae.org.

This standard defines acquisition data needed to define the support system for new products, systems, and end items. SAE GEIA-STD-0007 is a new and improved replacement for the cancelled MIL-STD-1388-2B and the cancelled MIL-PRF-49506. The application of SAE GEIA-STD-0007 is recommended for DoD Programs by tailoring the Statement of Work (SOW) to reflect Section 813 (FY13 NDA) and Better Buying Power 2.0 requirements and using the guidance contained in the handbooks SAE GEIA-HB-0007B and SAE TA-HB-0007-1A to define which activities are included in the SOW.

Custodians:
Army – TM
Navy – AS
Air Force – 10

Adopting activity:
Army – TM
Project (PSSS-2024-001)

Review activities:
Army – AT, AV, CR, GL, MI, PT
Navy – EC, SH
DLA – LS

Industry associations:
SAE
