MILITARY SPECIFICATION

DESIGN AND INSTALLATION OF ON BOARD
OXYGEN GENERATING SYSTEMS IN AIRCRAFT,
GENERAL SPECIFICATION FOR

This amendment forms a part of MIL-D-85520(AS), dated 10 March 1983, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 1

2.1.1 Under "Specifications, Military" delete:

"MIL-C-81302 - Cleaning Compound, Solvent, Trichlorotriflouroethane
MIL-T-81533 - 1,1,1 Trichloroethane (Methyl Chloroform), Inhibited, Vapor Degreasing"

PAGE 2

2.1.1 Under "Standards, Military" add:

"MIL-STD-1359 - Cleaning Methods and Procedures for Breathing Oxygen Equipment"

Add the following paragraph:

"2.2 Streamlining. This document has been streamlined. Appendix A to MIL-D-85520(AS) lists those documents required for MIL-D-85520(AS) acquisition and is a mandatory part of MIL-D-85520(AS). Those documents listed in Appendix A have the same status as those referenced directly in MIL-D-85520(AS) (first tier documents). All other documents, referenced through tiering, may be used as guidance and information to supplement MIL-D-85520(AS)."

PAGE 9

3.8.2 Delete and substitute: "3.8.2 Parts of the enriched air systems not covered by cleaning procedures shall be degreased in accordance with MIL-STD-1359 with the cleanliness test method for category 1. After completion of the cleaning and when assembled, a halogen or halide detector having a minimum sensitivity of not less than 3×10^{-4} standard cc/second shall be used to detect residues due to halogen."

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

PAGE 13

Add the following paragraphs:

"6.4 Streamlining. For MIL-D-85520(AS) acquisitions, the required portions of all MIL-D-85520(AS) tier reference documents shall be limited to the portions described in the "Applicability" column of Table VI in Appendix A.

6.5 Tailoring. When MIL-D-85520(AS) is tailored in an acquisition, Appendix A must be tailored accordingly. In particular, when Appendix A is tailored, specific attention must be given to the chain of referencing. For example, if a first tier reference document in MIL-D-85520(AS) is tailored out, all of the reference documents which are tiered to that first tier reference document must also be tailored out."

Add Appendix A as follows:

APPENDIX A

STREAMLINING INFORMATION

10. SCOPE

10.1 Scope. This Appendix is a list of documents referenced in MIL-D-85520(AS) or tiered to documents referenced in MIL-D-85520(AS). These documents have the same status as those referenced directly in MIL-D-85520(AS) (first tier documents). This Appendix is a mandatory part of this specification. The information contained herein is intended for compliance.

10.2 Application. This Appendix identifies the applicability of the documents referenced in MIL-D-85520(AS) or tiered to documents referenced in MIL-D-85520(AS) through the third tier. Only that portion(s) of a document, listed in Table VI of this Appendix, and described in the "Applicability" column, is pertinent in the use of MIL-D-85520(AS). If MIL-D-85520(AS) is tailored in acquisition, this Appendix must also be tailored.

20. DOCUMENTS

20.1 Documents. The documents listed herein and corresponding applicability data have been identified as required. All other documents referenced through tiering are not considered required and may be used for guidance and information.

TABLE VI. Required documents and corresponding applicability data.

DOCUMENT NUMBER:	DOCUMENT TITLE:	APPLICABILITY:	REFERENCED BY:
First Tier (1 of 19 Documents)			
BB-N-411	Nitrogen, Technical	Requirements and quality assurance. Water pumped Type I, Class 1, Grade B, for testing and purging.	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to BB-N-411, are for information and guidance.			
First Tier (2 of 19 Documents)			
MIL-E-5007	Engine, Aircraft, Turbojet and Turbofan, General Specifications for	Limits for contaminants in air supply	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to MIL-E-5007, are for information and guidance.			
First Tier (3 of 19 Documents)			
MIL-V-9050	Valves, Oxygen Cylinder High Pressure	Type II Qualified Product List (QPL) pressure relief valve	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to MIL-V-9050, are for information and guidance.			
First Tier (4 of 19 Documents)			
MIL-E-18927	Environmental Control Systems, Aircraft, General Requirements for	Cabin pressurization schedule	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to MIL-E-18927, are for information and guidance.

TABLE VI. Required documents and corresponding applicability data (continued).

DOCUMENT NUMBER:	DOCUMENT TITLE:	APPLICABILITY:	REFERENCED BY:
First Tier (5 of 19 Documents)			
MIL-L-25567	Leak Detection Compound Oxygen Systems (Metric)	Requirements and quality assurance Type I and Type II leak detection compound	MIL-D-85520
Second and Third Tiers			
All second through third tiers references, tiered to MIL-L-25567, are for information and guidance.			
First Tier (6 of 19 Documents)			
MIL-G-27617	Grease, Aircraft and Instrument, Fuel and Oxidizer Resistant	Any QPL item	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to MIL-G-27617, are for information and guidance.			
First Tier (7 of 19 Documents)			
MIL-S-81018 1/	Survival Kit Container, Aircraft Seat, With Oxygen, General Specification for	Any QPL item	MIL-D-85520
Second and Third Tiers			
All second through third tier references, tiered to MIL-S-81018, are for information and guidance.			

1/ The applicable portions of either MIL-S-81018 or MIL-S-83427 may be used.
