COMMERCIAL ITEM DESCRIPTION

DISHPAN (Food Container Pan)

The General Services Administration has authorized the use of this commercial item description for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description (cid) covers corrosion-resisting steel dishpans also known as food container or utility pans.

2. CLASSIFICATION

2.1 Classification. The dishpans shall be of the following sizes, as specified (see 7.2).

Size 1 - 12 quart (11.4 L)
Size 2 - 20 quart (18.9 L)

3. SALIENT CHARACTERISTICS

3.1 Material. The dishpans shall be formed from corrosion-resisting steel conforming to a type 300 series in accordance with ASTM A 167.

3.2 Construction. The dishpan shall be formed from a single piece of corrosion-resisting steel (except for the handles) and shall contain no seams. The bottom shall be indented. The dishpan shall conform to the dimensions listed in table I and shown on figure 1.

3.2.1 Handles. The handles for the dishpans shall be loop type fabricated from 5/8 inch (15.9 mm) minimum outside diameter corrosion-resisting steel tubing. The ends shall be flattened and secured to the body by multiple spot welds or by a continuous weld all around the flattened ends. An alternate handle construction for the size 1, 12 quart pan may be handles formed from flat stock 9/16 inch (14.3 mm) minimum width with a minimum thickness of 1/16 inch (1.6 mm).

3.3 Finish. The dishpans shall be cleaned and polished to a No. 2B or better finish as defined by the American Iron and Steel Institute's Handbook, "Finishes for Stainless Steel".

3.4 Performance requirements. The dishpans shall be capable of being filled with water to rated capacity, lifted by the handles above the resting surface, and held for a period of one minute and repeated for a total of ten complete cycles without visible signs of deformation, leakage, or other damage. The dishpans shall be capable of tolerating this process for a minimum of ten complete cycles.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor St., Fort Worth, TX 76102

Distribution Statement A: Approved for public release; distribution is unlimited.

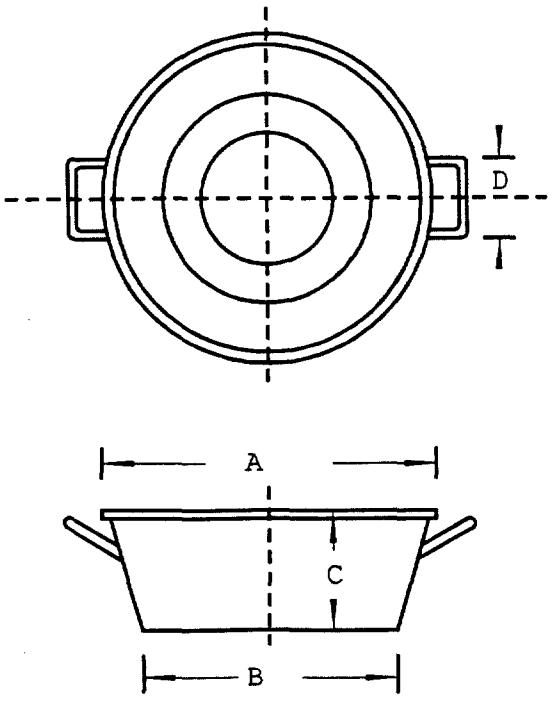

Figure 1 - Dishpan

Table I - Dimensions

Size	A	B	C	D
1	16 - 16-3/4	11 - 11-5/8	5 - 5-3/8	4-1/8 - 4-5/8
2	19 - 20	12-1/4 - 14	5-3/4 - 6-1/4	4-1/8 - 4-5/8

Note: Dimensions are listed in inches. Metric dimensions are listed in table II at the end of the document.

3.5 Marking. The dishpans shall be marked with the manufacturer's name, trade name, or trademark of such known character that the source may be readily determined.

3.6 Workmanship. The dishpans shall be clean, smooth, free from discoloration, pits, scale, rust, cracks, punctures, scratches, grind marks, die marks, burrs, slivers and sharp edges. The dishpans shall not be fractured, warped or malformed, and there shall be no evidence of fractures or punctures repaired by soldering. Welds shall be smooth, free of splatter and not undercut. Spot welds shall be sound with no visible evidence of surface burning. Slight visual differences (i.e., gloss) between the overall polished finish of the pan versus the buffed area opposite spot welds shall be acceptable. The dishpan shall be free from any other defects which may affect appearance or serviceability.

3.7 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

3.8 Standard commercial product. The dishpans shall, as a minimum, be in accordance with the requirements of this CID and shall be the manufacturer's

standard commercial product. A standard commercial product is a product which has been sold or is currently offered for sale on the commercial market through advertisements, manufacturer's catalogs, or brochures, and represents the latest production model.

4. REGULATORY REQUIREMENTS

4.1 Recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices and be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

6. PACKAGING

6.1 Preservation, packing, and marking. Preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Sources of non-Government association documents.

American Iron and Steel Institute handbooks are available from the Committee of Stainless Steel Producers, American Iron and Steel Institute, 1000 16th Street, N.W., Washington, DC 20036.

ASTM standards are available from the American Society for Testing and Materials (ASTM), 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959.

7.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number and date of this commercial item description.
b. Size required.
c. Preservation, packing, and marking desired.

7.3 National Stock Number (NSN): The following is a list of NSN's assigned which correspond to this CID. The list may not be indicative of all possible NSN's associated with the CID.

NSN	Size No.
7330-00-240-2201	1 - 12 quart
7330-00-190-5190	2 - 20 quart

Table II - Metric Dimensions

Size	A	B	C	D
1	40.6 - 42.5	27.9 - 29.5	12.7 - 13.7	10.5 - 11.7
2	48.3 - 50.8	31.1 - 35.6	14.6 - 15.9	10.5 - 11.7

Note: Dimensions are listed in centimeters.
