# COMMERCIAL ITEM DESCRIPTION
# PAPER, BOOK

The General Services Administration has authorized the use of this commercial item description as a replacement for Type II of UU-P-465 which has been cancelled.

1. **SCOPE:** This commercial item description covers white offset book paper and reflects item requirements of specification JCP A60 of the Joint Committee on Printing.

## 2. SALIENT CHARACTERISTICS:

2.1 Material: The cover paper shall conform to the requirements of JCP A60. In addition to these requirements, the paper shall contain recycled content as specified in the Ordering Data.

2.2 Basis Weight: The basis weight shall be as specified in the Ordering Data with a ± 5% tolerance and tested in accordance with Tappi T410.

2.3 Size and Trim: Size and trim shall be as specified in the Ordering Data. Book paper shall also be flat, trimmed square on four sides with clean, smooth edges, and evenly jogged. Size and trim tolerances shall conform to the requirements set forth in the Government Paper Specification Standards.

2.4 Grain Direction: The grain direction on flat paper shall be as specified in the Ordering Data.

2.5 Workmanship: All types of paper in accordance with this specification shall be clean, free from dirt spots , oil spots , shives foreign matter , and shall be uniform in color. There shall be no splices within a sheet and there shall be no partial sheets. There shall be no defects that may affect appearance or serviceability.

## 3. REGULATORY REQUIREMENTS:

3.1 Certification: The contractor shall certify that the regulatory requirements shall be as specified in the Ordering Data. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

3.1.1 Labeling: The recycled content shall be marked on the product or unit pack.

3.2. Bleaching. To obtain an acceptable brightness, in accordance with the performance standards of this document, a chemical bleaching process may be used. When specified in the ordering data (See Ordering Data), the bleaching process shall not include the use of chlorine, chlorine dioxide, or other chlorine compounds. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

## 4. QUALITY ASSURANCE PROVISIONS:

4.1 Product Conformance: The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards,and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.2 Testing: Shall be in accordance with Part 2, Testing Standards and Definitions, of the Government Paper Specification Standards published by the Joint Committee on Printing. (Note: See individual TAPPI's for specific sampling instructions).

4.3 Acceptance Criteria: Shall be as specified in Part 4, Acceptance Criteria, of the Government Paper Specification Standards published by the Joint Committee on Printing.

## 5. PACKAGING, PACKING, LABELING, MARKING, AND PALLETIZATION:

Packaging, packing, labeling, marking and, palletization shall be as specified in the contract or order.

## 6. NOTES:

6.1 Referenced Documents: The issue of the referenced documents in effect on the date of the solicitation for offers or request for proposals shall be used to determine conformance with the requirements of this Commercial Item Description.
