COMMERCIAL ITEM DESCRIPTION

CUTTER, CHEESE, HAND-OPERATED

The General Services Administration has authorized the use of this Commercial Item Description.

Intended use.

This commercial item description covers a commercial cutter for bulk formed cheese.

Salient characteristics.

The cutter shall be constructed of stainless steel except that the base may be of high density polyethylene. The overall dimensions shall not be greater than 20 inches in width, 20 inches in depth and 26 inches in height. The cutter shall be of the wire type, hand operated and be designed for counter top use. The cutter shall have an identification plate installed and shall include the manufacturer's model and serial number, contract number and national stock number.

Certification.

The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter may be otherwise provided for under the provisions of this contract.

Packaging.

A. Packaging. The cutter shall be preserved and packaged in accordance with commercial practice.

B. Packing. Packing shall be in accordance with commercial packing, complying with Uniform Freight Classification or National Motor Freight Classification, as applicable.
