COMMERCIAL ITEM DESCRIPTION

GLOVES, WELDER'S: LEATHER, GAUNTLET

The General Services Administration has authorized the use of this Commercial Item Description in preference to Type II, of Federal Specification KK-G-486.

Intended use

The gloves covered by this CID are intended for use by military personnel.

Description

The gloves shall be leather, having a one-piece continuous back.

Salient Characteristics

Basic The gloves shall utilize the Gunn pattern. The leather shall be flesh split cattlehide, chrome tanned, 2-1/2 to 3-1/2 ounce weight and light grey in color. The components in each pair of gloves shall be in the same color. All seams except the hem shall include leather reinforcing welts. The seam at the base of the second and third fingers shall be sewn with two rows of stitching and covered with a protective welt. The top edge of the gauntlet shall be folded over the lining fabric in the hemming operation.

Lining material The inside of the leather gauntlet front shall be lined with an unbleached cotton duck weighing not less than 8.25 ounces per square yard, having a minimum tear strength of not less than 4 pounds in warp and 3 pounds in the fill. The inside of the continuous back of hand shall be lined with the same cotton duck as on the gauntlet front and include a knitted wool-cotton plaited cloth between the cotton duck and the leather. The knitted fabric shall be tacked to the lining finger tips, extended and be attached to a position opposite the gauntlet/hand placement on the palm. The cotton back of the knitted cloth shall be next to the leather. The knitted cloth for the back lining shall be a wool cotton fabric of not less than 50's grade fleece or pulled new wool. The cotton backing yarn shall be not more than 30 percent of the weight of the cloth. The scoured and finished cloth shall range in weight from 9 to 11 ounces per square yard.

Thread, sewing The thread for sewing shall be unbleached cotton.

Sizes The sizes shall be XX-Small through X-Large (6 sizes), not less than 12-1/4 inches in length and 3-1/2 inches in hand width for the smallest size, running upwards in an approximate 1/2 inch grade. Each pair of gloves shall be matched, paired and tacked together so that they can be easily pulled apart without damage.

Certification

The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial market place. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging

A. Packing. Sixty pairs of gloves, of the same size, shall be packed in accordance with commercial practice complying with Uniform Freight Classification or National Motor Freight Classification as applicable.

B. Marking. The following information shall be marked on the shipping container. The item name and any encoded information describing nature, identity, style, color and size of the contents shall not be marked on the shipping container.

National Stock Number	Contract Number
Date of Pack	Name, Address and Zip Code of Manufacturer
