COMMERCIAL ITEM DESCRIPTION

TRUCK, HAND, BOX, LAUNDRY, PLASTIC

The General Services Administration has authorized the use of this Commercial Item Description in preference to Military Specification MIL-T-43610.

Intended Use

This commercial item description covers hand trucks for use in laundries and dry cleaning plants for both soiled and clean laundry.

Salient characteristics

This commercial item description covers the following trucks.

Capacity (bushels)	Body, rectangular (minimum inside dimensions)			Caster, diameter (inches)
	Length (inches)	Width (inches)	Depth (inches)	
8	32-7/8	21-1/4	23	3
12	33-3/4	24	27-1/8	4
16	37-1/2	26	29-1/2	5

The body of the truck shall be fabricated from polyethylene with a minimum wall thickness of 0.150 inches after forming. The top lid of the body shall be reinforced by the manufacturer's commercial method.

The plywood base of the truck shall be fabricated from exterior grade, group I, grade BC or better conforming to Product Standard PS 1-Plywood. The thickness of the plywood shall be a minimum of 5/8 inch.

Bolts shall be integrally molded into the bottom of the truck body. The bolts shall be spaced and located in such a manner as to receive the base and casters. Casters shall be type II, class B, style C, mounting P of Federal Specification FF-C-77 Casters, Rigid and Swivel (Institutional Duty).

Certification

The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product sold in the commercial marketplate. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of this contract.
