COMMERCIAL ITEM DESCRIPTION

SUPPORTER, ATHLETE'S

The General Services Administration has authorized the use of this Commercial Item Description in preference to Military Specification MIL-S-798.

This commercial item description covers athlete's supporters in the following types and sizes:

Type I - Without pocket for protective cup
Type II - With pocket for protective cup

Schedule of sizes

Small
Medium
Large

Salient characteristics.

The supporters shall consist of a waistband, pouch, and two leg straps. The pouch for the type I supporter shall be constructed of one or two pieces of single ply elastic webbing or mesh. The type II supporter shall have a double ply knitted elastic pouch forming a pocket for a protective cup and two snap fasteners at the top of the pouch pocket. All pouches shall measure approximately 6 inches wide by 6 inches long. The waistbands shall be approximately 3 inches wide and legstraps approximately 1 inch wide. The webbing for the waistband and leg straps shall be either woven elastic or knitted elastic and the minimum weight shall be 1.28 oz. per linear yard.

The supporters shall conform to the following size designations:

Size	Waist (inches)
Small	26 - 32
Medium	32 - 38
Large	38 - 44

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

PACKAGING.

A. Packaging. The product shall be packaged in accordance with commercial practice.

B. Packing. Seventy-two supporters of one type only, shall be packed in a snug-fitting fiberboard shipping container conforming to style RSC, type CF, class domestic, grade 275 of PPP-B-636 - Boxes, Shipping, Fiberboard. Inside dimensions of each shipping container shall approximate 18 inches in length, 15 inches in width, and 13 inches in depth. Approximate dimensions are furnished as a guide only. Each shipping container shall be closed in accordance with method II as specified in the appendix of PPP-B-636. Toward the end of the contract, or when there is less than the required amount per container of the same size, mixed sizes of one type may be packed within the same shipping container.

C. Marking. The following information shall be marked on shipping containers:

National Stock Number
Date of Pack
Contract Number
Name, Address and Zip Code of Manufacturer

Item Name and any encoded information describing nature, identity, style, color and size of the contents shall not be marked on the shipping container.

D. Labels, mixed sizes. Each shipping container, packed with mixed sizes, shall have securely attached to the end and side, directly under the printing or stenciling, a white paper label 5 by 4 inches with the words "MIXED NSN's" plainly printed or stamped thereon and under these words shall be legibly printed or stamped the correct quantity and NSN's contained therein.
