COMMERCIAL ITEM DESCRIPTION
PAPER, WRAPPING, MEAT

The General Services Administration has authorized the use of this commercial item description, for all Federal agencies.

1. SCOPE: This description covers meat wrapping paper, to be used in the wrapping of meat for delivery from commissaries or stores, and for short periods of refrigerated storage.

2. SALIENT CHARACTERISTICS:

A. Construction. Unless otherwise specified the color of the paper shall be the natural color of its components at the option of the supplier. The wrapping paper shall be made of processed wood fibers, containing no materials which are injurious to human health within the meaning of all provision of the Federal Food, Drug, and Cosmetic Act. The paper shall be furnished in the form of rolls.

B. Dimensions. The length and width of the rolls shall not be less than specified (see 7a). Rolls, up to and including 508 +/- 3.2 mm (20 +/- 1/8") widths, need not be wound on a fiber core, provided the ends are fitted with plugs. Rolls, widths 533 +/- 3.2 mm (21 +/- 1/8") and over shall be evenly and firmly wound on a fiber core having a inside diameter of 76.2 +/- 3.2 mm (3 +/- 1/8").

C. Physical Requirements. The paper shall conform to the physical requirements as specified in Table I.

Beneficial comments, recommendations, additions, deletions clarification, etc. and any data which may improve this document should be sent to: General Services Administration, Federal Supply Service, 26 Federal Plaza, New York N.Y. 10278
ATTN: Engineering Branch (2FYEE).

Distribution Statement A:
Approved for public release; distribution is unlimited.

Table I.

Characteristics	Requirements	Test Methods
Basis Weight (minimum)	65 +/- 3.2 g/m^2 (40 +/- 2 lbs) based on (24" x 36" -500 sheets)	TAPPI T 410
Bursting Strength	minimum avg. 20.2 points	TAPPI T 403
Tear Resistance	minimum 46 grams MD minimum 54 grams CD	TAPPI T 414
Odor	No Undesirable odor	TAPPI T 483
Hydrogen Ion Concentration (Ph)	Not less than 4.5 and not more than 7.2	TAPPI T 435

D. Workmanship. The paper shall be free from dirt spots, slits, scuff marks, cuts, wrinkles, holes, and soft spots across the face of the roll. The rolls shall have an even, clean cut edges, and shall be free from lint and dust.

3. QUALITY ASSURANCE:

A. Responsibility for Inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the Commercial Item Description, where such inspection are deemed necessary to assure that supplies and services conform to prescribed requirements.

B. Sampling. Samples shall be selected for inspection in accordance with MIL-STD-105 using the plans described in Table II.
A lot shall consist of a number of sample units manufactured by the same process form the same components at the same time. Random samples shall be drawn from each lot for the end item inspection. Unless otherwise specified, every lot shall be tested.
