COMMERCIAL ITEM DESCRIPTION

PROMETHAZINE HYDROCHLORIDE INJECTION, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-P-37739 which is cancelled.

Salient characteristics.

Shall be Promethazine Hydrochloride Injection, USP.

Shall be in accordance with the requirements of the USP.

All ingredients shall be of a pharmaceutical grade.

Strength:

1. 25 mg per ml.

2. 50 mg per ml.

The injection shall assay to contain the labeled amount of Promethazine Hydrochloride within the applicable assay limits for the injection.

Workmanship. The injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG).

For Size 1, shall be supplied 1 ml in a 1 ml commercially available cartridge-needle unit (22 gage x 1-1/4 inch needle). One package containing 10 cartridge-needle units, as specified, constitutes one unit. (See Note 1)

AMSC N/A FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

For Size II, shall be supplied 1 ml in a commercially available ampul. One package containing 25 ampuls, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered material. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Note 1: The cartridge-needle units shall be compatible with 6515-01-293-5579 Injector-tube and 6515-01-245-1871 Syringe-cartridge.
