TIER II ADOPTION NOTICE

IEEE 1516.4, *IEEE Recommended Practice for Verification, Validation, and Accreditation of a Federation - an Overlay to the High Level Architecture Federation Development and Execution Process*, was adopted on AUG 25, 2017, for use by the Department of Defense (DoD). Proposed changes by DoD activities to this adoption notice must be submitted to the DoD Adopting Activity: Defense Modeling and Simulation Coordination Office, Attn: Standards, 4800 Mark Center Drive, Suite 16E08-08, Alexandria, VA 22350-3600 or via email at osd.mssc.secretariat@mail.mil.

IEEE 1516.4 focuses on the VV&A processes that apply to federations developed using the High Level Architecture (HLA) Federation Development and Execution Process (FEDEP). It does not apply to the VV&A processes associated with individual simulations (federates); and it can be tailored to support any type of distributed simulation application. It does not replace existing VV&A policies, procedures and guidance. It is a higher-level framework into which VV&A practices can be integrated and tailored for specific uses.

The IEEE 1516 series of standards includes these three Standards that document the High Level Architecture: IEEE 1516-2010, *IEEE Standard for Modeling and Simulation (M&S) High Level Architecture (HLA)—Framework and Rules;* IEEE 1516.1-2010, *IEEE Standard for Modeling and Simulation (M&S) High Level Architecture (HLA)—Federate Interface Specification*, and IEEE 1516.2-2010, *IEEE Standard for Modeling and Simulation (M&S) High Level Architecture (HLA)—Object Model Template (OMT) Specification*.

IEEE 1516.3-2003, *IEEE Recommended Practice for High Level Architecture (HLA) Federation Development and Execution Process (FEDEP)* has been superseded by IEEE 1730-2010 (Revision of IEEE 1516.3-2003), *IEEE Recommended Practice for Distributed Simulation Engineering and Execution Process (DSEEP).*

The IEEE 1516 series of standards are sponsored by the Simulation Interoperability Standards Organization (SISO) Standard Activities Committee, serving as the IEEE Computer/Simulation Interoperability (C/SI) Standards Committee. IEEE Standards may be purchased from the Institute of Electrical and Electronics Engineers at the IEEE Customer Service Center, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331, U.S.A. or via the web at www.standards.ieee.org. SISO members may download active SISO-sponsored IEEE standards free at www.sisostds.org.
