# COMMERCIAL ITEM DESCRIPTION

## OVENS, PIZZA, COUNTER-TOP, ELECTRIC

The General Services Administration has authorized the use of this Commercial Item Description in preference to Military Specification MIL-O-43884.

Intended use.

This commercial item covers a commercial counter-top pizza oven.

Salient characteristics.

Construction. The pizza ovens shall have one compartment with two metal decks. The asbestos board dimensions for each deck shall not be less than 16-1/4 inches wide, 16-1/4 deep and 1/4 inch thick. The deck clearance dimension shall not be less than 3 inches. The exterior of the oven shall be of stainless steel. The outside dimensions of the oven shall not be greater than 23-1/2 inches wide, 23-1/2 inches deep and 18-1/2 inches high.

Controls. Each oven shall be equipped with a 0-15 minute mechanical timer graduated in minutes. Each oven shall have a thermostatic temperature control, a pilot light, and an "ON-OFF" switch. The thermostatic control shall be a rotating dial type with a range from 300°F to 700°F. The "ON-OFF" switch may be a separate component or may be integral with the thermostatic control.

Electrical characteristics.

The type I pizza oven shall be 120 volts, 60 Hertz, single phase. The wattage for the type I oven shall be 1800 Watts and shall be equipped with a 6 ft. UL approved 3 wire power supply cord with NEMA 5-20P plug.

The type II pizza oven shall be 220 volts, 50 Hertz, single phase. The wattage for the type II oven shall be 3000 and shall be equipped with a 6 ft. UL approved 3 wire power supply cord without an attachment plug.

Standards. The ovens shall comply with UL Standard No. 197 and the National Standard Foundation No. 4.

Identification plate. In addition to the marking and identification required by UL 197, the identification plate shall include the contract number and national stock number.

Certification.

The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards and quality assurances practices and is the same product offered in the commercial marketplate. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of this contract.

Packaging.

A. Packaging. The oven shall be preserved and packaged in accordance with commercial practice.

B. Packing. Packing shall be in accordance with commercial packing, complying with Uniform Freight Classification or National Motor Freight Classification, as applicable.

C. Marking. Commercial markings are acceptable, provided the following information is included:

| | |
|---|---|
| National Stock Number | Date of Pack |
| Item Description | Contract Number |
| Quantity | Name, address and zip code of manufacturer |
