MILITARY SPECIFICATION

PACKING, PREFORMED, RUBBER, PACKING; PACKAGING OF

This specification has been approved by the Department of Defense and is mandatory for use by the Departments of the Army, the Navy, and the Air Force.

1. SCOPE

1.1 This specification covers the requirements for preservation, packaging, and marking of preformed packing.

2. APPLICABLE DOCUMENTS

2.1 The following documents of the issue in effect on date of invitation for bids, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-B-566	Boxes, Folding, Paperboard
PPP-B-576	Box, Wood, Cleated, Veneer, Paper Overlaid
PPP-B-585	Boxes, Wood, Wirebound
PPP-B-591	Boxes, Fiberboard, Wood-Cleated
PPP-B-601	Boxes, Wood, Cleated-Plywood
PPP-B-621	Boxes, Wood, Nailed and Lock-Corner
PPP-B-636	Boxes, Fiberboard
PPP-B-640	Boxes, Fiberboard, Corrugated, Triple Wall
PPP-B-665	Boxes, Paperboard, Metal Stayed (Including Stay Material)
PPP-B-676	Boxes, Set-Up, Paperboard

MILITARY

MIL-P-116	Preservation, Methods of
MIL-L-10547	Liners, Case, Water-Proof

STANDARDS

MIL-STD-105	Sampling Procedures and Tables for Inspection by Attributes
MIL-STD-129	Marking for Shipment and Storage

(Copies of specifications, standards, drawings, and publications required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 **Preparation.** All preformed packing shall be thoroughly clean before packaging. Packaging shall be accomplished under conditions which will assure freedom from contamination by dust, oil, grease, or other foreign materials. Nopreformed packing

FSC 5330

shall be tied or tagged. Preformed packing too large for packaging singly in 18 by 18 inch bags may be coiled, but must not cross over themselves to provide a smaller diameter for convenience in packaging (see figure 1). Care shall be exercised in coiling the item to avoid possible cold-crease effects.

3.2 **Unit packaging.** Preservation and packaging shall be level A or level C, as specified (see 6.2).

3.2.1 *Level A.* Unless otherwise specified, packings shall be packaged one (1) each in accordance with method 1C–1 or 1C–3 of Specification MIL–P–116. Ordinarily, no preservative shall be used on the items.

3.2.1.1 *Envelopes.* Envelopes may be joined end-to-end in a strip-type package or may be arranged to form a preforated sheet type package (see figure 2). The smallest practicable size of envelope shall be used consistent with the size of the preformed packings to be packaged. Material for envelopes shall conform to materials specified for methods 1C–1 or 1C–3 of Specification MIL–P–116. Envelopes shall be one of the following sizes:

(a) 2 by 2 inches, ± ¼ inch
(b) 3 by 3 inches, ± ⅜ inch
(c) 4 by 4 inches, ± ½ inch
(d) 6 by 6 inches, ± ½ inch
(e) 8 by 8 inches, ± ½ inch
(f) 12 by 12 inches, ± ½ inch
(g) 16 by 16 inches, ± ½ inch
(h) 18 by 18 inches, ± ½ inch
(i) Other sizes as specified by the procuring activity.

3.2.1.1.1 *Level C.* Containers shall conform to good commercial practice. When unit package quantities greater than one each are required, quantities shall conform to table 1.

TABLE 1. *Multiple Unit Package Quantities*

SIZE	UNIT QUANTITY
OD ⅛ inch or less	100 each
OD over ⅛ inch but not over 2 inches	50 each
OD over 2 inches but not over 4 inches	10 each
OD over 4 inches	1 each

3.3 **Intermediate packaging.**

3.3.1 *Level A.* When specified, or at the option of the supplier packages shall be further packaged in quantities not to exceed 10 pounds, in paperboard or fiberboard boxes conforming to Specifications PPP–B–566, PPP–B–665, PPP–B–676 or PPP–B–636, Class 1. Box closures shall be in accordance with the applicable box specification and appendix thereto. Intermediate boxes shall contain only items of the same Federal Stock Number, cure date, date of manufacture or expiration date.

3.3.2 *Level C.* Unless otherwise specified, intermediate packaging will not be required.

3.4 **Packing.** Packing shall be level A, B or C as specified (see 6.2).

3.4.1 *Level A.* Packings, packaged as specified, shall be packed in containers conforming to Specifications PPP–B–576, overseas type, PPP–B–585, class 2 or 3, PPP–B–591, overseas type, PPP–B–601, overseas type, PPP–B–621, class 2, or PPP–B–636, class 2. Shipping containers shall be closed, strapped or banded in accordance with the applicable box specification. Gross weight of wood and wood-cleated boxes shall not exceed 200 pounds; fiberboard boxes shall not exceed the weight limitations of box specification. Containers shall be provided with a case liner conforming to Specification MIL–L–10547 and shall be sealed in accordance with the appendix thereto. The case liner will not be required when the unit, intermediate, or exterior container conforms to Specification PPP–B–636, Class 2.

3.4.2 *Level B.* Unless otherwise specified, intermediate containers shall be packed in domestic type exterior containers conforming to Specifications PPP–B–576, PPP–B–585, PPP–B–591, PPP–B–601, PPP–B–621, PPP–B–636 or PPP–B–640. Exterior containers shall be of minimum weight and cube consistent with the protection required. As far as practical, exterior containers shall be of uniform shape and size and contain identical quantities. The gross weight of wood and

wood-cleated boxes shall not exceed 200 pounds. Fiberboard boxes shall not exceed the weight limitations of the box specification. Closure shall be in accordance with the appendix of the applicable container specification.

3.4.3 *Level C.* Unless otherwise specified, packings packaged as specified shall be placed in exterior shipping containers conforming to standard commercial practice. Shipping containers shall conform to the Consolidated Freight Classification Rules or regulations of other carriers as applicable to the mode of transportation.

3.5 Marking. Interior packages and exterior shipping containers shall be marked in accordance with Standard MIL–STD–129. The date of cure as required in Standard MIL–STD–129 shall be indicated by the quarter and year. The quarter of year and year shall be separated by the letter "Q". Example: "2Q58" indicates a cure date of the second quarter of calendar year 1958. In addition the military part number, material specification, manufacturer's part number and compound number shall be included in the marking.

4. QUALITY ASSURANCE PROVISIONS

4.1 The supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own or any other inspection facilities and services acceptable to the Government. Inspection records of the examination and tests shall be kept complete and available to the Government as specified in the contract or order. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.2 Sampling for lot acceptance.

4.2.1 *Lot.* An inspection lot shall consist of all packages of the same item produced by a manufacturer under one contract with no change in process and offered for delivery at one time.

4.2.2 *Sampling for examination.* A random sample of packages shall be selected from each lot offered to the Government in accordance with Standard MIL–STD–105 at Inspection Level II. The Acceptance Quality Level shall be 6 percent defective.

4.2.3 *Examination.* Each sample selected in accordance with 4.2.2 shall be visually and dimensionally examined to assure conformance with the requirements of this specification.

4.3 Test. A random sample of packages shall be selected from each lot offered to the Government and tested in accordance with the requirements of applicable specifications. The Acceptable Quality Level and Inspection Level shall be as specified in referenced specifications.

5. PREPARATION FOR DELIVERY

Not applicable.

6. NOTES

6.1 Intended use. The individual packaging methods for preformed packings specified in this specification are intended to accomplish the following:

(a) Assure positive identification of each preformed packing by part number until it is installed in the component.

(b) Provide protection of preformed packings for contamination by foreign materials prior to installation.

6.1.1 The intermediate containers specified will afford sufficient additional protection from the effects of prolonged exposure to harmful rays in sunlight. Special sealing against light will not be necessary.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification

Check the source to verify that this is the current version before use.

(b) Selection of applicable levels of packaging and packing (see 3.2, 3.3 and 3.4).

Notice. When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
