3.2.1: Delete and susbstitute:

"3.2.1 Level A. Packings shall be packaged one (1) each in accordance with Method 1C1, MIL-P-116. The envelope (bag) shall be constructed of opaque material only. No preservative shall be applied to the packing."

3.2.1.1: Delete in its entirety.

Following Table I add:

"3.2.2 Size. Outside diameter.

"3.2.2.1 Thirteen inches and under. Packings 13 inches and under shall not be coiled.

"3.2.2.2 Over thirteen inches. Packings over 13 inches shall be coiled as shown in Figure 1 in order to utilize sizes of envelopes (see 3.2.3). Packings shall not cross or lap over themselves. Care shall be exercised in coiling the packing to avoid possible cold-crease effects. After coiling, the packing shall be sandwiched between two stiffners of material conforming to PPP-F-320 to prevent movement of the packing. The stiffners shall be fastened by taping with pressure sensitive tape on the four edges. The fiberboard shall not be compressed in such a manner which would deform the packing; however, the packing shall not be permitted to uncoil nor come in contact with the pressure sensitive tape.
