FED. SUP CLASS
6640

MATERIAL: The rack shall be fabricated from rigid linear polyethylene plastic.

DESIGN: The rack is 203 mm wide x 489 mm long x 508 mm high. Holding stations are spaced so that four separatory funnels, up to 98 mm diameter, can be accommodated on the center shelf. Four beakers can be placed on the lower shelf and four long-stemmed funnels are carried on the top support. Thumb screws in the vertical columns allow for 203 mm vertical adjustment of the top support. Thumb screws in the center shelf allow adjustment for different sizes of separatory funnels. Four feet on the base provide for mounting and stability.

NOTE: 1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

APPROVED 26 JUL 1982 REVISED
