COMMERCIAL ITEM DESCRIPTION

UNDECYLENIC ACID AND ZINC UNDECYLENATE POWDER

The General Services Administration has authorized the use of this commercial item description in preference to MIL-U-36000.

This commercial item description covers Undecylenic Acid and Zinc Undecylenate Powder, for use as a topical antifungal powder.

Salient characteristics:

Shall be a uniform, homogeneous, grit-free powder mixture containing:

Undecylenic Acid	2 percent
Zinc Undecylenate	20 percent
Talc (which may contain perfume)	78 percent

The Undecylenic Acid content shall be not less than 90.0 percent and not more than 125.0 percent of the required amount of Undecylenic Acid when assayed by a suitable, accurate and reproducible method.

The Zinc Undecylenate content shall be not less than 90.0 percent and not more than 110.0 percent of the required amount of Zinc Undecylenate when assayed by a suitable, accurate and reproducible method.

One and one half ounces (42.5 Gram) to 45 Grams of the powder shall be packaged in a sifter top can.

Not less than 32 months of the expiration dating period shall remain at the time of delivery to the Government.

Workmanship. Powder shall be free from defects which detract from its appearance or impair its serviceability.

Packaging and packing quantities. One can (CN), as specified, constitutes one unit. Intermediate and exterior package quantities shall be as specified in the contract or order.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Check the source to verify that this is the current version before use.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
