COMMERCIAL ITEM DESCRIPTION

IODOCHLORHYDROXYQUIN AND HYDROCORTISONE CREAM

The General Services Administration has authorized the use of this commercial item description in preference to MIL-I-37403A.

This commercial item description covers Iodochlorhydroxyquin and Hydrocortisone Cream for use as a local anti-fungal and anti-inflammatory agent.

Salient characteristics:

Shall be a cream containing 3.0 percent Iodochlorhydroxyquin and 1.0 percent micronized Hydrocortisone, within the applicable assay limits, calculated on a weight/weight basis.

Not less than 20 months of the expiration dating period shall remain at time of delivery to the Government.

Workmanship. Cream shall be free from defects which detract from its appearance or impair its serviceability.

Packaging and packing quantities. One tube (TU), as specified, constitutes one unit. Intermediate and exterior package quantities shall be as specified in the contract or order.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
