COMMERCIAL ITEM DESCRIPTION

DISH, CULTURE, PETRI, STERILE, PLASTIC, DISPOSABLE

This commercial item description shall be used in preference to Federal Specification NNN-D-335B.

This commercial item description covers 100 x 15 mm size plastic petri culture dishes with covers, that are sterile and disposable.

Salient characteristics:

Petri culture dishes shall be in the following types: Type I (uncompartmented) and Type II (compartmented). The Type II (compartmented) petri culture dishes shall be in the following classes: Class 1 (with two-sectional dividers) and Class 2 (with three-sectional dividers).

Petri culture dishes shall be fabricated from polystyrene that shall be clear and transparent, and free of toxic lubricants and other additives which would adversely affect the growth of bacterial cultures.

Petri culture dishes shall be circular and shall consist of bottom sections (i.e. the dishes) and flanged covers.

The bottom sections (dishes) shall provide for a uniform media depth and shall sit flat on plane and level surfaces. The dividers in the class 2 bottom sections shall be an integral part of the dishes. The covers shall fit over and be easily removed from the bottom sections by using one hand.

The surfaces of the petri culture dishes shall be able to accept clear and clean markings with a wax or crayon-type pencil.

The diameter of the rims of the bottom sections shall be 89 ± 2 millimeters (mm). The inside depth shall be at least 10 mm.

The petri culture dishes shall be sterile. The method and efficacy of sterilization shall be acceptable to the Food and Drug Administration (FDA).

Workmanship. The petri culture dishes shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing five hundred petri dishes (twenty-five bags of twenty dishes each), as specified, constitutes one unit. The bag containing the twenty dishes, shall be a sealed plastic bag which will maintain sterility until manually opened. Shipping container shall contain one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
