5.2.2, Level C: Delete in its entirety and substitute:

"5.2.2 Level C. The packing containers for the ignition cartridge shall comply with the requirements of Title 49 CFR, parts 100 - 179."

5.3, Marking: Delete in its entirety and substitute:

"5.3.1 Level A. Unit and intermediate packaging for ignition cartridge shall be marked in accordance with requirements of MIL-STD-129-1. The exterior packing shall be marked in accordance with requirements of drawing 8796522.

5.3.1.1 Wood boxes POP marking. Prior to shipping M5A2, M6 or M8 ignition cartridges, the containers must successfully pass a complete POP test program as specified in Title 49 CFR. Testing must be performed by a certified POP test report to be submitted to the government. Testing may be performed using actual cartridge ignition or a simulant (the testing weight shall be increased by ten (10) percent). The POP marking to be applied to the exterior pack shall be as specified by the government after review and acceptance of submitted POP test report. The marking shall be in accordance with Title 49 CFR and MIL-STD-129-1. POP tests shall be performed again whenever a change in the packaging or packing manufacturer takes place. Testing must be repeated if two (2) years have elapsed since the last test has taken place.

5.3.2 Level C. Unit and intermediate packaging for ignition cartridge shall be marked in accordance with requirements of MIL-STD-129-1. The exterior packing shall be marked in accordance with requirements of drawing 8799112.
