COMMERCIAL ITEM DESCRIPTION

TABLE, WELDING

The General Services Administration has authorized the use of this commercial item description as a replacement for MIL-T-45809F for all federal agencies.

1. SCOPE. This commercial item description (CID) establishes the government acquisition requirements for a steel-frame welding table with firebricks which will be used as a portable workstation for welding operations.

2. SALIENT CHARACTERISTICS

2.1 Frame. The table frame shall be fabricated from commercial quality steel meeting the requirements specified in one of the two applicable standards published by the American Society for Testing and Materials (ASTM). The applicable alternative standards are ASTM A575, "Standard Specification for Steel Bars, Carbon, Merchant Quality, M-Grades", and ASTM A569/A569M, "Standard Specification for Steel, Carbon (0.15 Maximum, Percent), Hot-Rolled Sheet and Strip, Commercial Quality".

2.2 Firebrick. The firebrick used in the table shall meet the requirements of both ASTM C24, "Standard Test Methods for Pyrometric Cone Equivalent (PCE) of Fireclay and High Alumina Refractory Materials", and ASTM C210, "Standard Test Method for Reheat Change of Insulating Firebrick".

2.3 Dimensions. The table dimensions shall comply with the arrangement and measurements specified in Figure 1.

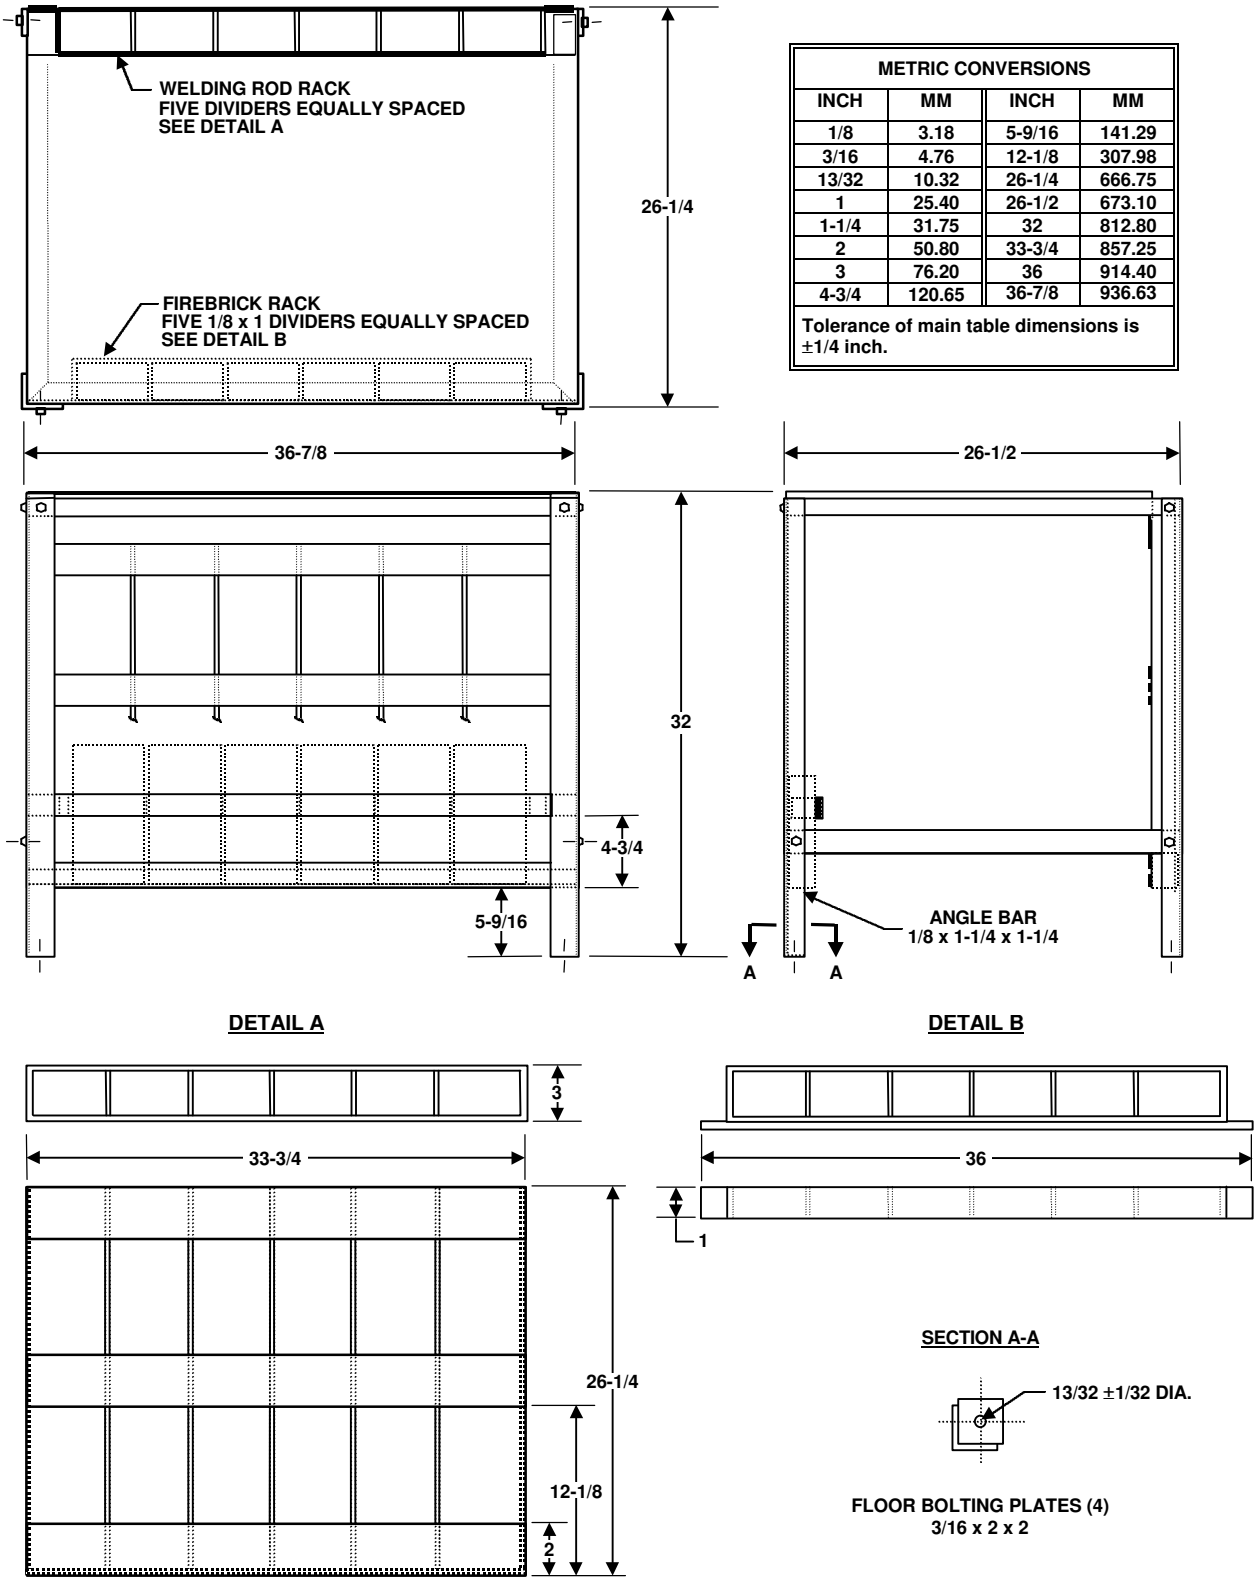

2.4 Weight. The weight of the table shall not exceed 150 pounds.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any other data which may improve this document should be sent to: Defense Supply Center Richmond (DSCR), ATTN: DSCR-VBD, 8000 Jefferson Davis Highway, Richmond, VA 23297-5678.

AMSC N/A FSC 3436

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3. REGULATORY REQUIREMENTS

3.1 Recycled materials. Offerors and contractors are encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

3.2 Environmental protection. All welding table products and production methods shall meet all applicable Environmental Protection Agency restrictions in effect on the date of the associated contract. These regulations specify material emissions which are hazardous to the environment or to the user's health and shall be applied during the manufacturing, service, transportation, storage, and use of the tables supplied.

4. QUALITY ASSURANCE PROVISIONS

4.1 Product conformance. The welding tables provided shall meet the salient characteristics requirements of this commercial item description; shall conform to the producer's own drawings, specifications, standards, and quality assurance practices; and shall be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.2 Market acceptability criteria. The product offered must have been previously sold on the commercial market.

5. PACKAGING

5.1 Preservation, packing, and marking. For acquisition purposes, the table shall be preserved, packed, and marked as specified in the contract or order.

6. NOTES

6.1 Sources of documents

6.1.1 FAR. The FAR may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-0001.

6.1.2 ASTM standards. Copies of ASTM Standards may be obtained from the American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959.

6.2 National stock number (NSN). The NSN 3436-00-847-3772 is associated with the welding table described in this document. Other NSNs may also apply to this document.
