SUPERSEDING
Int. Fed. Spec. Y-G-00683a (AGR-AMS)
August 22, 1961 and
Fed. Spec. Y-G-683
December 21, 1953

FEDERAL SPECIFICATION

GRAPEFRUIT, FRESH (FLORIDA)

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. CLASSIFICATION

1.1 Types. Grapefruit shall be of the following types: seeded white, seedless white, seeded pink, seedless pink, as specified (see 6.1).

1.2 Sizes. Grapefruit shall be of the numerical count per container, as specified (see 6.1).

1.3 Grades. Grapefruit shall be of the following grades, as specified (see 6.1).

Fancy (see 3.3.1)
No. 1 Bright (see 3.3.3)
No. 1 (see 3.3.2)
No. 1 Golden (see 3.3.4)
No. 1 Bronze (see 3.3.5)
No. 1 Russet (see 3.3.6)
No. 2 (see 3.3.7)
No. 2 Bright (see 3.3.8)
No. 2 Russet (see 3.3.9)

2. APPLICABLE SPECIFICATIONS, STANDARDS, AND OTHER PUBLICATIONS

2.1 Specifications and standards. The following specifications and standards, of the issues in effect on date of invitation for bids, form a part of this specification.

Federal Specification:

PPP-F-685—Fresh Fruits and Vegetables, Packaging, Packing and Marking of.

Federal Standards:

Fed. Std. No. 102—Preservation, Packaging, and Packing Levels.
Fed. Std. No. 123—Marking for Domestic Shipment (Civilian Agencies).

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications, Standards, and Handbooks and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

(Single copies of this specification and other product specifications required by activities outside the Federal Government for bidding purposes are available without charge at the General Services Administration Regional Offices in Boston, New York, Washington, D. C., Atlanta, Chicago, Kansas City, Mo., Dallas, Denver, San Francisco, and Auburn, Wash.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications, Standards, and Handbooks from established distribution points in their agencies.)

2.2 Other publications. The following documents form a part of this specification. Unless otherwise indicated, the issues in effect on date of invitation for bids shall apply.

Check the source to verify that this is the current version before use.

Governmental:

Federal Food, Drug, and Cosmetic Act and General Regulations for Its Enforcement.

(Copies of the Federal Food, Drug, and Cosmetic Act and General Regulations for Its Enforcement may be obtained upon application, accompanied by money order, coupon, or cash to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Prices may be obtained from the Superintendent of Documents.)

United States Standards for Grades of Florida Grapefruit.

(Single copies of the United States Standards for Grades of Florida Grapefruit may be obtained without charge from the U. S. Department of Agriculture, Washington 25, D. C.)

Nongovernmental:

Official Methods of Analysis of the Association of Official Agricultural Chemists.

(Official Methods of Analysis of the Association of Official Agricultural Chemists is published by the Association of Official Agricultural Chemists, P. O. Box 540, Benjamin Franklin Station, Washington 4, D. C.)

Freight Container Tariffs 1-F and 2-F, Specifications of Standard Containers and Loading Rules for Fruits, Fresh, and Vegetables, Fresh or Green (not Cold-Packed nor Frozen).

(Application for the Freight Container Tariffs may be submitted to W. T. Jamison, 516 Jackson Boulevard, Chicago 6, Illinois.)

3. REQUIREMENTS

3.1 **Federal Food, Drug, and Cosmetic Act.** All deliveries shall comply in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

3.2 **Description of sizes.** The sizes of grapefruit shall be designated by the numerical count marked on each container.

3.3 **Description of grades.** Unless otherwise specified, the interpretation of requirements (descriptive terms) contained in 3.3.1 through 3.3.11 inclusive shall be in accordance with the United States Standards for Grades of Florida Grapefruit in effect on date of invitation for bids.

3.3.1 *Fancy* consists of grapefruit of similar varietal characteristics which are well colored, firm, well formed, mature, and of smooth texture, and which are free from ammoniation, bird pecks, bruises, buckskin, cuts which are not healed, decay, growth cracks, scab, sprayburn, and free from injury caused by green spots or oil spots, pitting, scale, scars, thorn scratches, and from damage by any cause.

(a) In this grade not more than one-tenth of the surface in the aggregate may be affected by discoloration. *Tolerances*: Not more than 10 percent of the fruits in any lot may fail to meet the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, that an additional tolerance of 2-1/2 percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. None of the foregoing tolerances shall apply to wormy fruit.

3.3.2 *No.* 1. No. 1 consists of grapefruit of similar varietal characteristics which are fairly well colored, firm, well formed, mature, and of fairly smooth texture, and which are free from bruises, cuts which are not healed, buckskin or similar type of discoloration, decay, growth cracks, sprayburn, and free from damage by any cause.

(a) In this grade not more than one-third of the surface in the aggregate may be affected by discoloration. *Tolerances*: Same as for Fancy except that in addition, 10 percent of the fruits in any lot may fail

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T11:37Z
Check the source to verify that this is the current version before use.

to meet the requirements relating to discoloration.

3.3.3 *No. 1 Bright.* The requirements of this grade are the same as for No. 1 except that the fruit may have not more than one-fifth of its surface, in the aggregate, affected by discoloration. *Tolerances*: The same as for No. 1.

3.3.4 *No. 1 Golden.* The requirements for this grade are the same as for No. 1 except that not more than 30 percent, by count, of the fruits shall have in excess of one-third of their surface in the aggregate affected by discoloration. *Tolerances:* Same as for Fancy except that no part of any tolerance shall be allowed to reduce or to increase the percentage of fruits having in excess of one-third of their surface in the aggregate affected by discoloration which is required in the grade, but individual containers may vary not more than 10 percent from the percentage required: *Provided,* that the entire lot averages within the percentage specified.

3.3.5 *No. 1 Bronze.* The requirements of this grade are the same as for No. 1 except that all fruit must show some discoloration, and more than 30 percent, by count, of the fruit shall have more than one-third of the surface, in the aggregate, affected by discoloration. The predominating discoloration on each fruit must be of rust mite type. *Tolerances*: The same as for No. 1 Golden.

3.3.6 *No. 1 Russet.* The requirements of this grade are the same as for No. 1 except that more than 30 percent, by count, of the fruit shall have in excess of one-third of the surface, in the aggregate, affected by any type of discoloration. *Tolerances*: Same as for Fancy except that no part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-third of their surface in the aggregate affected by discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided,* that the entire lot averages within the percentage specified.

3.3.7 *No. 2* consists of grapefruit of similar varietal characteristics which are mature, fairly firm, not more than slightly misshapen or of slightly rough texture, and which are free from bruises, cuts which are not healed, decay, growth cracks, and free from serious damage by any cause.

(a) Each grapefruit may be only slightly colored.

(b) In this grade not more than one-half of the surface in the aggregate, may be affected by discoloration. *Tolerances*: Same as for Fancy except that serious damage by dryness or mushy condition is not limited to 5 percent, and in addition, 10 percent of the fruits in any lot may fail to meet the requirements relating to discoloration.

3.3.8 *No. 2 Bright.* The requirements for this grade are the same as for No. 2 except that no fruit may have more than one-fifth of its surface, in the aggregate affected by discoloration. *Tolerances*: The same as for No. 2.

3.3.9 *No. 2 Russet.* The requirements for this grade are the same as for No. 2 except that more than 10 percent, by count, of the fruits shall have in excess of one-half of their surface in the aggregate affected by discoloration. *Tolerances*: Same as for Fancy except that very serious damage caused by dryness or mushy condition is not limited to 5 percent and no part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-half of their surface in the aggregate affected by discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided,* that the entire lot averages within the percentage specified.

Check the source to verify that this is the current version before use.

3.3.10 *Application of tolerances.* The contents of individual packages are subject to the following limitations: *Provided,* that the averages for the entire lot are within the tolerances specified for the grade:

(a) A package which contains more than 10 pounds shall have not more than one and one-half times a specified tolerance of 10 percent and not more than double a specified tolerance of less than 10 percent except that at least one decayed or very seriously damaged fruit may be permitted in any package.

(b) A package which contains 10 pounds or less, shall have not more than four times the tolerances specified, except that at least two defective fruits may be permitted: *Provided,* that not more than one fruit which is seriously damaged by dryness or mushy condition or very seriously damaged by other means may be permitted in any package; and in addition, en route or at destination not more than 10 percent of the packages may have more than one fruit affected by decay.

3.3.11 *Standard pack.*

(a) Fruits shall be fairly uniform in size, unless specified as uniform in size, and when packed in boxes or cartons, shall be arranged according to the approved and recognized methods. Each wrapped fruit shall be fairly well enclosed by its individual wrapper.

(b) All such containers shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages. When grapefruits are packed in standard nailed boxes, each box shall have a minimum bulge of 2 inches, except that boxes packed with grapefruit of size 80 or smaller need only have a bulge of 1-1/2 inches. When packed in cartons or in wire-bound boxes, each container shall be at least full at time of packing.

(c) "Fairly uniform in size" means that not more than 10 percent, by count, of the fruit in any container are outside the ranges of diameters given in the following table for various packs:

TABLE I.—*Diameter in inches*

Pack	Minimum	Maximum
36's	5	5-9/16
45's or 46's	4-11/16	5-4/16
54's or 56's	4-6/16	4-15/16
64's	4-3/16	4-12/16
70's or 72's	3-15/16	4-8/16
80's	3-12/16	4-5/16
96's	3-9/16	4-2/16
112's	3-7/16	4
125's or 126's	3-5/16	3-14/16

(d) "Uniform in size" means that not more than 10 percent, by count, of the fruits in any container vary more than the following amounts:

64 size and smaller—not more than 6/16 inch in diameter.

54 size and larger—not more than 9/16 inch in diameter.

(e) In order to allow for variations, other than sizing, incident to proper packing, not more than 5 percent of the packages in any lot may fail to meet the requirements of standard pack.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 **Sampling.** Samples of grapefruit offered under this specification may be selected by the Government inspector, examined, and tested at any time to determine if they are in accordance with the requirements of this specification.

4.2 **Inspection.**

4.2.1 *General.* Inspection shall be made by the procuring agency or a duly authorized representative, at the time and place designated by the procuring agency. It may be made at the packinghouse,

Source: https://assist.dla.mil -- Downloaded: 202640-26T11:37Z
Check the source to verify that this is the current version before use.

both during and after packing, at any suitable point in transit and/or after delivery to the point of destination. If inspection is made during the time of packing, the passing as satisfactory of any detail of packing or materials shall not relieve the contractor of responsibility for faulty workmanship or materials which may be discovered at any time prior to final acceptance.

4.2.2 *Final inspection.* Unless otherwise specified, final inspection shall be made after delivery to the point of destination (see 6.3 and 6.4).

4.2.3 *USDA certificate of quality and condition.* When specified by the procuring agency the contractor shall furnish a U. S. Department of Agriculture, Federal or Federal-State certificate of quality and condition as outlined in procurement documents.

4.2.4 *Responsibility for inspection.* The supplier is responsible for meeting all the provisions of the specification prior to submission of supplies to the Government for acceptance. Unless otherwise specified in the contract or order, the supplier is required to furnish an official inspection certificate issued by a Federal agency certifying that the grade of the product supplied is as required by the contract or order.

4.2.4.1 Inspection records of the examination and tests shall be complete and made available to the Government as specified in the contract or order. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.3 Tests.

4.3.1 *Chemical analyses.* Unless otherwise specified, chemical analyses, if required by the purchaser, shall be made in accordance with the methods of the Association of Official Agricultural Chemists in effect on the date of invitation for bids, or in accordance with methods that give equivalent results.

5. PREPARATION FOR DELIVERY

For civil agency procurement, the definitions and applications of the levels of packaging and packing shall be in accordance with Fed. Std. No. 102.

5.1 **Packaging.** Packaging shall be in accordance with 5.1.1 or 5.1.2, as specified (see 6.1).

5.1.1 *Level A (Military export).* The product shall be packaged in accordance with PPP-F-685.

5.1.2 *Level C.* Unless otherwise specified, commercial packaging is acceptable.

5.2 **Packing.** Packing shall be in accordance with 5.2.1, or 5.2.2, as specified (see 6.1).

5.2.1 *Level A (Military export).* The product shall be packed in accordance with PPP-F-685.

5.2.2 *Level C.* Unless otherwise specified, grapefruit shall be packed in commercial cartons or boxes which shall be clean, sound, well filled, and securely covered and so constructed as to insure acceptance and safe delivery by common carriers for safe transportation to point of destination specified in shipping instructions at lowest transportation rate for such supplies. Each container shall be packed so that the grapefruit on the shown face shall be reasonably representative in size, color, and quality of the contents of the container; each container shall be well filled but the contents shall not show excessive or unnecessary bruising because of overfilled

Check the source to verify that this is the current version before use.

packages. Incident to packing, as herein defined, not more than 5 percent of the units may fail to meet the foregoing requirements: *Provided,* that no individual requirement shall be deliberately disregarded.

5.3 **Labeling and marking.**

5.3.1 *Civil agencies.*

5.3.1.1 *Labeling.* Any commercial labeling or additional labeling as specified, that complies with the Federal Food, Drug, and Cosmetic Act, and regulations promulgated thereunder is acceptable.

5.3.1.2 *Marking for shipment.* Shipping containers shall be marked in accordance with the requirements of Fed. Std. No. 123 and with such other information as specified by individual agencies.

5.3.2 *Military agencies.* Labeling and marking shall be in accordance with PPP-F-685.

6. NOTES

6.1 **Ordering data.** Purchasers should exercise any desired options offered herein and procurement documents should specify the following:

(*a*) Type of grapefruit required (see 1.1).
(*b*) Sizes of grapefruit required (see 1.2).
(*c*) Grade of grapefruit required (see 1.3).
(*d*) USDA Certificate of Quality and Condition if required (see 4.2.3).
(*e*) Applicable levels of packaging and packing (see 5.1 and 5.2).

6.2 If samples with bids are necessary, they should be specifically asked for in the invitation for bids, and the particular purpose to be served by the bid sample should be definitely stated, the specification to apply in all other respects.

6.3 **Contractor's inspection.** The contractor should be required to assure that the product conforms to the specification prior to submission to the Government for final inspection.

6.4 **Destination inspection.** When the finished product has been inspected and passed at point other than destination, the contract should require that the product be inspected at destination for condition and quantity only.

6.5 **Transportation description.** Transportation descriptions and minimum weights applicable to this commodity are:

Rail:
Grapefuit, fresh
Carload minimum weight 36,000 pounds.

Motor:
Grapefruit, fresh
Motor volume minimum weight 36,000 pounds.

Notice. When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data, is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
