DATA ITEM DESCRIPTION

Title: Critical Safety Item Inspection and Material Certification Report
Number: DI-SAFT-81933 **Approval Date: 20130827**
AMSC Number: N9148 **Limitation: N/A**
DTIC Applicable: N/A **GIDEP Applicable: N/A**
Office of Primary Responsibility: AS/AIR 4.8.8.8
Applicable Forms: N/A

Use/relationship: The Critical Safety Item Inspection and Material Certification Report provides a complete document set of Objective Quality Evidence (OQE) of inspection and certification. These sheets are required for all Critical Safety Items.

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the contract SOW.

Requirements:

1. Format. Contractor's format acceptable.

2. Content.

2.1. Title Page, containing the following:
- a. Title/identification of the system/component/program/project.
- b. Title of CDRL and CDRL number
- c. Contract number.
- d. Preparing activity or contractor's title.
- e. Security classification, when required.
- f. Distribution Statement.

2.2. Table of Contents

2.3. The body of the report shall contain the following:
- a. Completed Inspection Method Sheets
- b. Completed Process/Operations Sheets (when needed by the contractor to document necessary OQE)
- c. The recorded results (actual readings and/or measurements) of Quality Conformance and Lot Sampling Inspection for all associated attributes and characteristics that are present in the requirement/drawings and specifications.
- d. OQE of Government witness of GSI hold points.
- e. Flight Safe certification number/MIC number (when MIC marking is required on the part(s))
- f. May include any other additional OQE (as required to demonstrate that the part(s) conform to the requirements/specifications)

3. End of DI-SAFT-81933.
