1. Scope

1.1 This standard covers pertinent design data and Mil-Std Part Numbers for American Gage Design Standard truncated thread setting plug gages for go gages for Unified Standard classes 2A and 3A and American National Standard class 3 external threads.

1.2 The same truncated thread setting plug gage is applied to classes 3 and 3A threads having the same nominal size and threads per inch.

1.3 The design data for truncated thread setting plug gages employs class "W" gage manufacturing tolerances in accordance with the U. S. Department of Commerce Handbook H28 "Screw-Thread Standards for Federal Services".

2. Referenced Documents

2.1 The issues of the following documents in effect on the date of invitation for bids form a part of this standard.

Standard

Mil-Std-10 Surface Roughness Waviness and Lay

(Application for copies should be addressed to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.)

Specification

Mil-G-45654 Gages, Plug and Ring, Thread

(Copies of specifications should be obtained from the procuring activity or as directed by the contracting officer.)

Other Publications

U.S. Department of Commerce, National Bureau of Standards, Handbook H28 "Screw-Thread Standards for Federal Services".

U.S. Department of Commerce, Commercial Standard CS8, "Gage Blanks".

(Application for copies should be addressed to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C.)

3. Definitions

Not applicable

4. General Requirements

4.1 This standard contains four tables. Table I provides tabulated design data required for manufacture and inspection and is arranged in ascending size sequence according to thread designation for Unified Standard gages. Table II provides tabulated design data required for manufacture and inspection and is also arranged in ascending size sequence according to thread designation for American National Standard gages. Table IIIcontains thread designations previously listed in the Standard series of Unified Standard thread (with the exception of 1.0000-14UNS-3A, NS-3 W (see 1.2) which was listed also in the American National Thread Series). They have been redesignated from Standard to special (UNS) threads and are listed herein for reference purposes. Table IV is a listing of Mil-Std Part Numbers in ascending numerical sequence, and is provided as an aid for locating the required design data contained in tables I, II, and III for any given Mil-Std Part Number.

4.1.1 Tables I, II, and III. Tabulation of Design and Identification Data.

4.1.1.1 Mil-Std Part Numbers and the corresponding thread designation for each truncated thread setting plug gage are listed in columns B and C respectively.

4.1.1.2 Column A lists the proper reference to the applicable figure (drawing) for each Mil-Std Part Number.

4.1.1.3 Columns B to D inclusive list the identification data for each Mil-Std Part Number and, when applied to the figure (drawing) referenced in column A, provide information for proper marking of the gages. It is not necessary to mark the "5220" indicated in column B on the gage. For example: Mil-Std Part Number 5220-749-8000 may be marked 7498000 on the gage.

4.1.1.4 Columns E to K inclusive list the design data for each Mil-Std Part Number and, when applied to the figure (drawing) referenced in column A, provide data required for manufacture and inspection.

4.1.1.5 The unit of measurement in columns D, E, F, G, H,and K is inches; column J is ± minutes of a degree.

4.1.1.6 Design data, etc., not specifically covered in this standard shall conform to the latest issue of the documents referenced in paragraph 2 above.

4.1.2 Table IV. Listing of Mil-Std Part Numbers in Numerical Sequence.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T07:30Z
Check the source to verify that this is the current version before use.

4.1.2.1 All Mil-Std Part Numbers contained in this standard are listed in ascending numerical sequence in column A.

4.1.2.2 Column B references the page number in tables I, II, and III where the design and identification data for the applicable Mil-Std Part Number may be found.

5. Procurement

5.1 The general requirements and tabulated design data contained in this standard are applicable for procurement purposes, as are the referenced manufacturing and inspection specifications.

5.2 Ordering Data. Procurement documents should specify the following:

(a) Title, number, and date of this standard

(b) Number of gages required and Mil-Std Part Number

(c) Place of delivery for acceptance inspection

Notice: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data, is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

Copies of specifications, standards, drawings, and publications required by contractors in connection with specific procurement functions should be obtained from the procuring agency or as directed by the contracting officer.

Copies of this standard for military use may be obtained as indicated in the foreword to the DOD Index of Military Specifications and Standards.

Copies of this standard may be obtained for other than official use by individuals, firms, and contractors from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Both the title and the identifying symbol number should be stipulated when requesting copies of military standards.
