COMMERCIAL ITEM DESCRIPTION

LAMP, INCANDESCENT, PAR-46, 24 VOLT, FLOODLAMP, 2 CONTACT LUGS

The General Services Administration has authorized the use of this commercial item description in preference to MS17165B, which is cancelled.

Abstract

This description covers a 24-volt, PAR-46 incandescent floodlamp intended for use in construction and industrial machinery equipment.

Salient characteristics.

Design The lamp shall be of the all-glass sealed-beam type, industry trade number 4578, and shall conform to SAE J598 for sealed lighting units for construction and industrial machinery.

Preservation, packaging, packing, labeling, and marking. The industry trade number and voltage shall be permanently marked on the rear surface of the lamp. The type of service (floodlamp) shall be permanently marked on the lens. Preservation, packaging, packing, and any marking for the shipping containers shall be as specified in the contract or purchase order.

Certification of commercial item. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and other data which may improve this document should be sent by letter to: CMDR, US ARMY BELVOIR RDE CTR, ATTN SATBE TSE, 10101 GRIDLEY RD, STE 104, FT BELVOIR VA 22060-5818.

AMSC N/A FSC 6240

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within specified tolerances using conversion tables contained in the latest revision of FED-STD-376, and all other requirements of this commercial item description are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting of rejecting the product.

Regulatory requirements. In accordance with Federal Acquisition Regulation, section 23.403, the Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements or exposing the contractor's employees to undue hazards from the recovered materials.

Notes. The procuring agency should specify the preferred options permitted herein and include the following information in procurement documents.

1. Title, number, and date of this item description.

2. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
