DATA ITEM DESCRIPTION
Title: MANAGEMENT SYSTEM DOCUMENTATION

Number: DI-PSSS-82389
AMSC Number: N10341
DTIC Applicable: No
Preparing Activity: SH
Applicable Forms: N/A

Approval Date: 20220830
Limitation: N/A
GIDEP Applicable: No
Project Number: PSSS-2022-008

Use/Relationship: The Management System documents will assist the Government in the development of the Naval Nuclear Propulsion Program (NNPP) Management System documents and training materials.

This Data Item Description (DID) is applicable to contracts requiring Management System documents. These are required in order to comply with the International Organization for Standardization (ISO) 17025 Section 8.2. International Organization for Standardization (ISO) 17025 contains the requirements for National Voluntary Laboratory Accreditation Program (NVLAP) accreditation.

This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the discrete Contract Line Item (CLIN) as delineated in the contract Statement of Work (SOW). Document revisions affecting technical or quality assurance aspects will be provided upon revision.

Requirements:

1. Reference Documents: International Organization for Standardization (ISO) 17025

2. Format: Management System documents shall be in the contractor's format.

3. Content: The management system documents shall consist of all procedures related to:

    a. Dosimeter and software operation
    b. Dosimeter calibration
    c. Dosimeter and software troubleshooting and maintenance
    d. Review of dose results
    e. Software security and backup
    f. Auditing system performance
    g. Quality assurance
    h. Equipment inspection and evaluation
    i. Technical manuals
    j. Drawings and photos necessary for performance of maintenance performed by the Naval Nuclear Propulsion Program (NNPP).
