DATA ITEM DESCRIPTION

Title: ANTI-TAMPER PLAN
Number: DI-SCRE-82399
AMSC Number: 10363
DTIC Applicable: No
Preparing Activity: OSD-RS
Applicable Forms: N/A

Approval Date: 20221025
Limitation:
GIDEP Applicable: No
Project Number: SCRE-2022-017

Use/relationship: The Anti-Tamper (AT) Plan documents the lifecycle planning, design and verification and validation of AT architecture and implementation from concept development through final product performance evaluation and through sustainment. The plan enables the program to make informed decisions to plan for and address the protection of Critical Program Information (CPI).

a. The AT Plan, when complete, will also consist of an AT Verification Plan which contains information related to the verification and validation of the AT architecture and design.

b. This Data Item Description (DID) contains format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

    1.1. Anti-Tamper Plan Template (https://at.dod.mil/policy, CAC-enabled or account required)

    1.2. Anti-Tamper Verification Plan Template (https://at.dod.mil/policy, CAC-enabled or account required)

2. Format. The Initial and Final AT Plan shall be submitted in the AT Plan Template format. The Concept AT Plan can be submitted in contractor format. Plans requiring the use of the AT Plan Template will only be accepted in the most up-to-date format found on the AT Executive Agent website at https://at.dod.mil. The AT Plan shall conform to the following:

    a. The report and all attachments shall be typewritten, or otherwise clearly lettered, and shall be duplicated using non-fading ink.

    b. Text shall be prepared on standard letter size paper (8 ½ x 11”).

Check the source to verify that this is the current version before use.

c. Additional attachments shall be fully identified, referenced in the text, and folded to conform to the size paper used in the report.

d. Security classification and distribution markings shall conform to the requirements of the contract, purchase description and security requirements checklist, as applicable.

3. Content. The AT Plan shall contain the following:

3.1. AT Plan.

3.2. AT Verification Plan (to be included as part of the AT Plan as appropriate).

3.3. Any additional attachments that may be included as part of the AT Plan as updated throughout the product's lifecycle.

4. End of DI-SCRE-82399.
