DATA ITEM DESCRIPTION
Title: REQUIRED NAVIGATION PERFORMANCE (RNP) COMPLIANCE ANALYSIS

Number: DI-SESS-82379
AMSC Number: N10307
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20220314
Limitation: N/A
GIDEP Applicable: N/A
Project Number: SESS-2022-013

Use/relationship: The Required Navigation Performance (RNP) Compliance Analysis provides an analysis of system performance accuracy, containment integrity, containment continuity, and containment compliance evaluation in accordance with RTCA DO-236C, Sections 4.1.2, 4.2, 4.3, and 4.4.

This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the contract statement of work (SOW).

This analysis will be used to show compliance to the system performance requirements contained in the NAVAIR System Specification for Performance-Based Navigation

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions shall be as specified in the contract. The documents cited below establish the baseline for this DID's content.

1.1. RTCA DO-236C, Minimum Aviation System Performance Standards: Required Navigation for Area Navigation, dated June 19, 2013

2. Format. The RNP Compliance Analysis shall be in contractor's format, unless the RNP system includes the Government Furnished Information (GFI) Flight Management Function (FMF) Application, then the format shall be government supplied.

3. Content. The analysis shall include:

3.1. System Description - to include:

3.1.1. Systems contributing to RNP compliance.

3.1.2. Subsystems contributing to RNP compliance.

3.2. System Architecture.

3.3. System Interfaces.

3.4. System Configuration Identification.

3.5. Functional Hazard Analysis.

Check the source to verify that this is the current version before use.

3.6. System Safety Assessment.

3.7. Certification Basis and Means of Compliance.

3.8. Assumptions Used in the Analysis.

3.9. Limitations of the Analysis.

3.10. Performance Accuracy Compliance in accordance with RTCA DO-236C Section 4.2.

3.11. General Containment Compliance in accordance with RTCA DO-236C Section 4.3.

3.12. Containment Integrity and Continuity Evaluation in accordance with RTCADO-236C Section 4.4.

End of DI-SESS-82379
