DATA ITEM DESCRIPTION

Title: SUSTAINING ENGINEERING PROJECT STATUS REPORT

Number: DI-SESS-82420
AMSC Number: N10437
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20231027
Limitation: N/A
GIDEP Applicable N/A
Project Number: SESS-2023-034

Use/Relationship: The Status Report documents the status of contractor effort towards achieving contract objectives. It identifies accomplishments to date and difficulties encountered, and compare the status achieved to planned goals and the resources expended. It is used by the Government to monitor and evaluate contractor performance.

This Data Item Description (DID) contains the format, content, and intended use information for the data product resulting from the work task described in the contract SOW.

Requirements:

1. Reference Documents. None.

2. Format. The Status Report shall be in contractor format.

2.1. Identification. The data indicated below shall be contained on a title page or on the first page of the report.

2.1.1. Title/identification of the system/component/program/project.

2.1.2. Type of report (e.g., monthly, interim, final).

2.1.3. Period covered by the report.

2.1.4. Contract number.

2.1.5. Preparing activity or contractor's title.

2.1.6. Security, classification, when required.

2.1.7. Distribution Statement.

2.2. Page size. The report shall be on 8 ½ by 11 inch (metric A4 paper)

3. Content. The report shall contain the following:

3.1. Organizational structure. The plan shall present an organizational chart and supporting narrative portraying the contractor's business (corporate) structure. It shall describe the functional relationships and responsibilities among the organizational elements that will participate in the accomplishment of the contractual commitments.

3.2. Program management. The plan shall present an organizational chart and supporting narrative describing the management office the contractor established to manage the contractual commitment. The plan shall define the direct lines of control, responsibilities, functional relationships, and authority between the management office and the contractor's other organization elements. The plan shall also describe all interfaces between the contractor and the Government.

3.3. Personnel. The plan shall list the personnel staffing of the contractor's management office that directs the contractual tasks, projects, and programs and assist in completing the contract. The listing shall include the security clearance that personnel require to fill these positions.

3.4. The Contractor shall track the status of the core and non-core activities accomplished during the month. The Contractor shall include the following;

3.4.1. Biweekly Meeting Minutes open items.

3.4.2. Status of risk(s).

3.4.3. Status of Technical Inquiries.

3.4.4. TIM open items (as applicable).

3.4.5. PMR open items (as applicable).

3.4.6. Maintenance Working Group (MWG) open items (as applicable).

3.4.7. Service Actions reviewed and Service Action Support Report (status listing).

3.4.8. Status of Service Bulletins.

3.4.9. Conference open items (as applicable).
