DATA ITEM DESCRIPTION

Title: ON-BOARD PERFORMANCE TOOL SOFTWARE

Number: DI-SESS-82421
AMSC Number: N10438
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20231027
Limitation: N/A
GIDEP Applicable N/A
Project Number: SESS-2023-035

Use/Relationship: The On-Board Performance Tool (OPT) is commercial software used to evaluate weight, balance, and performance decrements for aircraft. OPT software is used by squadrons to support mission planning and execution. This deliverable provides a means for the Contractor to administer changes and updates to OPT software, thereby providing squadrons with turnkey functionality to maintain a consistent, up-to-date aircraft database of aircraft weight and balance for the cargo, combi, and passenger configurations of all aircraft.

This Data Item Description (DID) contains the format, content, and intended use information for the data product resulting from the work task described in the contract Statement of Work (SOW).

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format. Manufacturer format is acceptable.

3. Content.

    3.1. Each disk containing OPT software shall contain the following information listed on it:

        3.1.1 Software manufacturer.

        3.1.2 Software title.

        3.1.3 Software manufacturer part number.

        3.1.4 Software version number.

        3.1.5 Software release date.
