Data Item Description

Title: GROUND OPERATION PROCEDURES

Number: DI-SESS-82431
AMSC Number: N10450
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20240119
Limitation: N/A
GIDEP Applicable N/A
Project Number: SESS-2024-004

Use/relationship: The Ground and Flight Risk Clause (*GFRC*) (252.228-7001 MAR 2023) requires the contractor's full compliance with the version of the Combined Regulation/Instruction entitled "Contractor's Flight and Ground Operations" in effect from the time of contract award throughout the period of performance of the contract, as it pertains to their operations. Therefore, the requirement to develop and follow procedures that mitigate the risk of loss or damage to contracted aircraft is a contractual requirement and applies independently of the Government's assumption of risk via the GFRC. These procedures apply to contractor personnel whose duties include the operation, production, modification, development, or maintenance of any GFRC covered aircraft, and, if complied with, indemnifies contractors of liability to the extent specified by the clause. The term "covered aircraft" applies to aircraft that are covered by the Government's assumption of risk under the GFRC. The term cannot be modified except as provided within the GFRC or as provided at DFARS 201.4.

This Data Item Description (DID) directs the format, content, and intended use information for the data product resulting from the work task described by the Contract, Performance Work Statement (PWS), and DCMA INST 8210-1D, Chapter 3.

Requirements:

1. Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, will be as specified in the contract.

2. Format. Use format as specified in DCMA INST 8210-1D, paragraph 3.8.2. If the element does not apply to the platform or project, annotate as Not Applicable for that section or paragraph.

3. Content. The Ground Operations Procedures (GOP) shall include the following:

3.1. Explanatory pages with the following minimum information:

3.1.1. The Contractor and contract number (*Cover page*).

3.1.2. The type of aircraft (*Cover page*).

3.1.3. Date / Revision number (*Cover page*).

3.1.4. Contractor and GGFR approval signatures (Signatures may be electronic) (*Cover page*).

Check the source to verify that this is the current version before use.

3.1.5. A continuous Record of Revisions page to document required updates and other necessary changes throughout the life of the contract.

3.1.6. A Table of Contents.

3.2. Procedures Body. Include procedures for all sections applicable to contracted operations from DCMA INST 8210-1D, Section 3, APPENDIX 3A and any other contract mandated Service guidance, instructions, or regulations. Refer to each applicable section of the Instruction (i.e., sections 3, 4, 5, 6, 7) for specific details and requirements to be addressed. Follow instructions in paragraph 3.8.2 if a Section or paragraph is not applicable to operations.

End of DI-SESS-82431
