Check the source to verify that this is the current version before use.

NOTES:

1. The term (REF) refers to measurements taken from the Government furnished hub or die.

2. Stars may be soldered to each corner of the pentagonal frame or the insignia may be made in one piece.

3. The pentagonal frame shall be 1/16 inch ± 1/64 inch (0.16 cm ± 0.04 cm) thick.

4. The attaching device shall be prong and clutch type. Prongs shall be located on a horizontal line at the center back of the outside stars.

5. Insignia may be made from sterling silver for commercial sale and if so, the thickness dimensions are for reference only. A minimum weight of 120 grains shall govern. The finish shall be as specified except the nickel plating requirement shall not apply.
